1

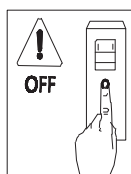

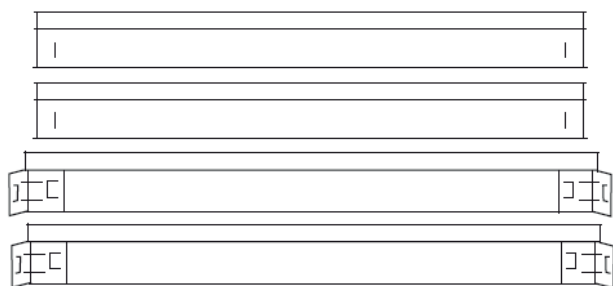

Fig.1 - Turn off the power

2

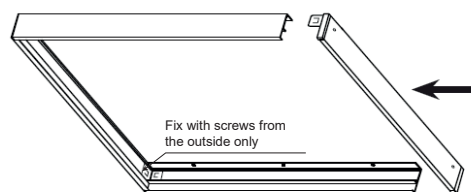

Fig.2 - Assemble the frame ensuring the correct orientation of the corners. The corners clip in to location to assist with assembly

3

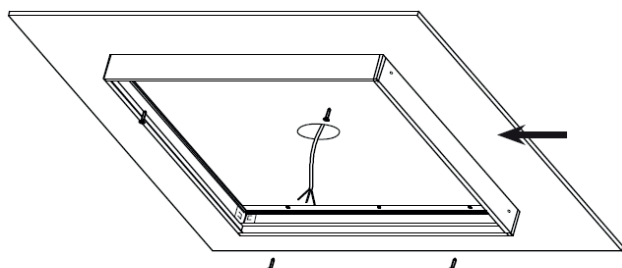

Fig.3 - With the supply cable in position, mark the location of the 4 frame fixing holes. Fix in to position using suitable fixings and screws ensuring secure.

4

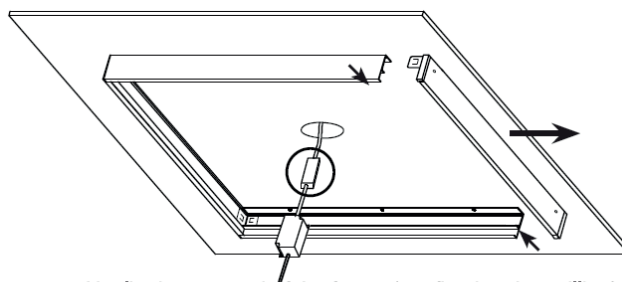

Fig.4 - Unclip the one end of the frame (not fixed to the ceiling). Terminate the supply cable to remote driver using suitable connector/junction box. See individual panel wiring instructions.
