

# Datasheet for Earth box under Earth

Item no.	W5303, El. No.:
Application	Protection of installation of earth wire on earth rod above earth max. 6mm2 under earth.
Material	Ring: Bytul rubber kit: Shrink cap
Dimensions	Ring: Bytul rubber kit: Shrink cap
Installation	Strip your ground cable 25 -30mm. Insert the wire under the clamping ring at the embossing and place both parts on the ground spike. Pinch the opposite side of the clamping ring with a pair of pillars Place a piece of double self-vulcanizing tape between the caple and ground spike. Place the shrink cap and heat the cab until it is shrunk. Always start at the top. You have now a safe earth connection.
Compliance	Reach Regulation (EC) NO. 1907/2006 Rohs Directive 2011/65/EU
