

ECC-O-BAG

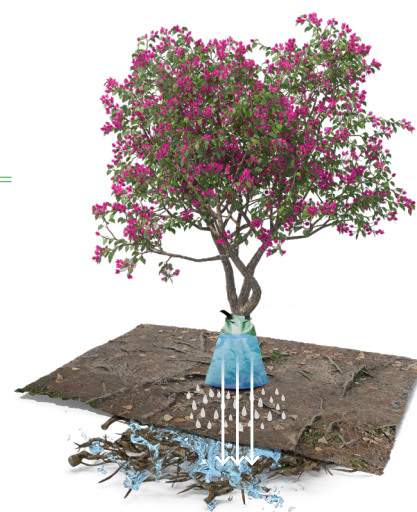

Reusable tree watering bag

For slow and targeted watering of trees

INFO

- + Slow and even irrigation allows trees to absorb water more effectively, without the risk of overwatering
- + The tree remains better protected during periods of extreme drought
- + Easy to install thanks to the zipper system
- + Wide range of applications: multiple bags can be zipped together depending on trunk diameter
- + Durable material: tear-resistant and UV- and weather-resistant
- + Discharge time: 7-10 hours

TECHNICAL SPECIFICATIONS

- + **MATERIAL:** REACH-certified PVC
- + **CAPACITY:** 75 L
- + **WEIGHT:** 650 g
- + **COLOUR:** green

APPLICATIONS

- + To be used after planting or transplanting trees
- + Suitable for applying liquid tree fertilizers
- + Fill the ECC-O-Bag once or twice a week with clean water (to avoid clogging of the holes)
