

## FCC COMPLIANCE

This equipment has been tested and found to comply with the limits for a Class B digital device according to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in following the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation even if installed correctly. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on & off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and the receiver.
- Connect the equipment to an outlet that is connected to a different circuit to the one on which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician if you require any additional help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Do not throw this product away with your regular household trash. Instead, take it to a special recycling centre for electrical and electronic equipment (EEE). Recycling it properly helps protect the environment and human health. For more details, contact your local recycling centre. Make sure to remove the batteries before recycling, and dispose of them separately.

LIGHTING

## Congratulations on the purchase of your Uyuni® LED candle!

The Uyuni® LED candle has a 3D electronic flame that gently flickers, creating a soft and inviting light. Uyuni® LED candles are battery-powered and are controlled using a manual switch.

Use the candles on their own or in creative arrangements of multiple candles in order to illuminate your home and create focal areas of light and warmth.

The Uyuni Salt Flats in Bolivia are famous for the crystal clear night skies in which the stars shine brighter than almost anywhere else on Earth. Uyuni candles bring the aura of these distant galaxies into your home as their gently flickering lights illuminate the dark to create a restful and inviting ambience.

## RECHARGEABLE BATTERY

- Rechargeable up to 500 times.

## PILLAR

- Charging time ~10 hours (base with 4 candles)

## TEALIGHT

- Charging time ~2 hours (base with 4 candles)

## MAXI TEALIGHT

- Charging time ~3,5 hours (base with 4 candles)

Charging two bases with the same cable will double the charging time. Fast speed chargers can be used but won't shorten charging time

## CANDLE OPERATION

- In timer mode the candle will turn on for 6 hours from the moment you activate it and then turn itself off for 18 hours, with the cycle repeating daily.

The Uyuni® REMOTE CONTROL (sold separately) allows you to choose between 4 timer modes and 3 brightness levels.

- The remote cannot control the candle while it is charging

Manual Operation of the Candle:

Push the button:

1. Once for 6-hour timer mode
2. Twice for continuous ON
3. Thrice for OFF

## CARE INSTRUCTIONS

If required, the candle can be cleaned using a mild household soap and a soft, damp cloth.

## IMPORTANT SAFETY INSTRUCTIONS

- The candle is made from PLASTIC and is FLAMMABLE when exposed to an open flame. Keep away from any heat source (including direct sunlight) that could cause the plastic to melt or catch fire.
- Please DO NOT pull or hold the candle by the LED flame as this could damage the product.
- Place the candle on a protective base to prevent any possible residue from damaging your decor surfaces.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## CHARGING BASE

- Connect the bases to a 5V/3A power adapter (not included) using the USB-C/C cable provided in the box. Please note, the Uyuni charging base requires this as a minimum power input.
- A maximum of 2 bases can be connected to one cable. Connecting more than 2 bases may result in slow charging or trigger the overcharge protection of the charger.
- Two small white light indicators will turn on when the base is connected to power.
- The base can be placed horizontally on a table, etc., and is compatible with all Uyuni Rechargeable candle versions.
- The base can be mounted on a wall to hold tealights and maxi tealights (without glass/container) as magnets will secure the candles to the base.
- Rings on the base indicate the different candle sizes that can be used with each individual base.
- Charging base are designed for INDOOR use only.

## RECHARGEABLE CANDLES

- Candles will automatically start charging when correctly places on the base. The push button can be set to either ON or OFF while charging.
- While charging, the candle will flash or glow slightly.
- The light will turn off when fully charged.
- If a fully charged battery is placed on the charging base, it will flash for no more then one minute before turning off.
- For charging time details for Uyuni Rechargeable Candles, refer to the Rechargeable Battery section.
- Designed for INDOOR & OUTDOOR use rated IPX5.
