

Shelly BLU RC Button 4 ZB

Bluetooth & Zigbee 4-channel remote control

EAN code: 3800238072537

Product description

The Shelly BLU RC Button 4 ZB is a compact remote control with four buttons that can be configured to control lighting, blinds, garage doors, scenes, and other smart home functions. It comes with a wall holder that mounts easily with screws. The remote features a magnetic back, allowing it to sit in the holder or be placed freely on a table or nightstand.

The device uses Bluetooth for fast response and includes built-in Zigbee for integration with third-party Zigbee platforms.

Shelly BLU devices require a gateway for network access. Any Shelly Pro, Gen3, or Gen4 device, as well as the Shelly BLU USB Gateway, can serve as a gateway. If you already have a Shelly device on your Wi-Fi, it will automatically act as a gateway for BLU devices.
