Connecting BT on Anna Make-Up Mirror

- 1 / Enable BT on your device for pairing.
- 2 / BT automatically turns on when you turn on the power on the Anna Make-Up Mirror.
- 3 / To ensure BT is on, you can press and hold on () to put Anna Make-Up Mirror in pairing mode for your device. A blue light indicator at the back of the mirror will be blinking with a sound, indicating that it is ready to connect and pair with your device (e.g. mobile phone, tablet).
- 4 / Once successfully paired, you can now make voice calls and listen to music!

Tips: Make sure Anna Make-Up Mirror and your device are situated close enough. If your BT devices are not connecting, it could be due to devices being out of range or they are not in pairing mode. If BT connection problems still persist, try resetting your devices (including Anna Make-Up Mirror), or have your devices "forget" the connection and restart again.

Note: If you are playing music as the call comes in, the song will pause so that you can answer the call. The song resumes once you end the call, as long as the BT is still connected. When turning off the BT, there will be a sound alert indicating that it is disconnecting the BT, thus disconnecting music and calls from your device.

3 light setting options

Neutral White (6000k)

True neutral white (no red or blue hues), is recommended for getting photo-ready.

Soft White (3500k)

This warmer hue (free of blue light) is perfect for creating a makeup look for an evening occasion like a date night or for night-time skincare routines to help ease you into sleep.

Natural Daylight (5000k)

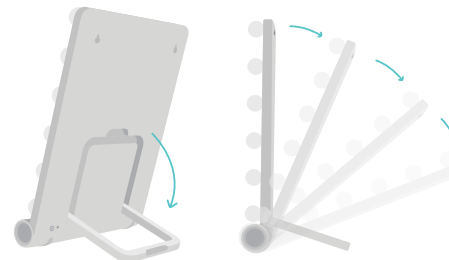

All-round ideal light for daytime makeup as it simulates natural daylight.

Let's begin

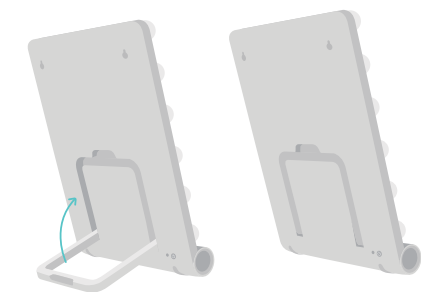

POINT 01

Display Anna Make-Up Mirror as a vanity mirror on a tabletop by pulling out the stand located at the back of the mirror, and adjust the angle of the mirror to your preferred position.

POINT 02

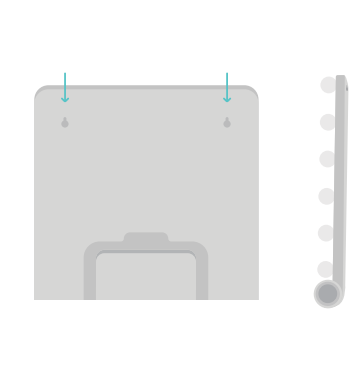

If you no longer wish to use Anna Make-Up Mirror as a tabletop mirror, simply push the stand back into its slot.

POINT 03

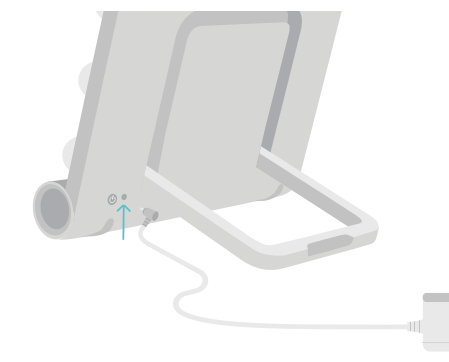

Anna Make-Up Mirror can also be mounted on the wall, simply by utilizing the two wall mount holes on the back of the mirror.

Note: As wall materials vary, screws for fixing to the wall are not included. For advice on suitable screw systems, contact your local specialized dealer.

POINT 04

Ensure you cater for space at the back of the mirror to be able to access plugging in the mirror with the provided cord to a reliable power source.

Powering up

1/ Ensure the power cord is plugged into a reliable power source.

2 / Push the (⏻) button on the back of the mirror. The BT function automatically turns on as well.

3 / Push the (💡) button on the front of the mirror to turn on LED lights.

4 / Anna Make-Up Mirror has three different LED light options. To cycle through the different light settings, tap the (💡) button. Anna Make-Up Mirror will remember the last setting you used when you power it back on.

5 / Holding on the (💡) button will dim or brighten the light until you reach your desired brightness. The light is dimmable in every setting.

6 / To continue using Anna Make-Up Mirror without the LED lights or to turn off the light, simply tap on the (💡) button again. We recommend you turn the power off when you're not using Anna Make-Up Mirror to save energy.

Note: The light will automatically turn off after 30 minutes to conserve power.
