

ABB EcoSolutions™ – S200 MCBs

A range designed to ensure efficiency and protection

The S200 range is designed to protect installations from overloads and short circuits, ensuring reliability and safety under all operating conditions. We feature a broad portfolio that offers solutions for many different applications, either for domestic, small commercial or industrial solutions. Due to approvals according to most major standards it can be used in installations worldwide. Furthermore, the S200 range is fully compatible with a wide range of accessories.

End-of-life instructions

Clear instructions for product disassembly and recycling individual parts for re-use. ([LINK](#) to the document)

Enhanced durability

Tested for double the standard amount of electrical and mechanical endurance (20,000 cycles vs. 10,000 cycles described in the product standard).

Designed for high recyclability

Up to **87.8% recyclability rate**, calculated according to EN 45555.

Produced in a zero waste to landfill site

All non-hazardous waste is recycled, and we continuously work to minimize waste in our operations.

Sustainable packaging materials

Packaging is made of 100% recycled cardboard.

Third-party verified Environmental Product Declaration
EPD compliant with ISO 14025 Type III (externally verified), ensuring data accuracy and full transparency on the product's environmental impacts throughout its life cycle. ([LINK](#) to the EPD).

Low carbon manufacturing
This product is manufactured in an ABB facility that is powered by renewable energy.
