PRODUCT SHEET
Cable Management Selfclosing Wrap for Demanding Installations

DESCRIPTION
oNEST Nordic Woven Selfclosing Wrap is developed for effective protection and organization of wires and cables in demanding environments.

The smart split design makes it possible to install and remove cables without disconnecting existing installations, ensuring fast and flexible installation, and even provides optimal coverage, and a professional finish.

The product effectively protects against dust, dirt, moisture, and other external influences that may damage wiring harnesses and cause electrical faults.

APPLICATION AREAS

Typical environments	Suitable for
Office and commercial buildings	Horizontal and vertical installation
Industrial environments	Suitable for all environments
Sterile environments	Flexible installations
Retail and shop fittings	
Environments with automated cleaning systems	

TECHNICAL SPECIFICATIONS

Parameter	Specification
Material	PET
Construction	Wowen PET
Installation	Wall and floor mounting
Application	Indoor
Recyclability	100%
Certification	REACH and RoHS compliant

MATERIALS / COMPONENTS
Wowen polyester

DIMENSIONS (Other dimensions available upon request)
Widths (mm) - 6 | 10 | 19 | 25 | 32 | 38 | 50
Lengths (mm) - 25 | 50 | 100

STANDARD COLORS (Other colors available upon request)
Black | Grey | White | Yellow | Orange

WEIGHT
Depends on selected width and length. Detailed weight specifications available upon project request.

CERTIFICATION
REACH and RoHS

DESIGN & ENGINEERING
Developed and engineered by oNEST Nordic - All rights reserved.

PRODUCT INFORMATION
Item number/EAN number: Depends on selected width and length.
