https://echa.europa.eu/authorisation-list

Annex XVII of REACH
Furthermore, this is to confirm that products currently supplied by WD-40 Company Limited comply with the Restricted Substances List - Annex XVII of REACH (dated 12/11/2024).

EU and UK REACH Obligations

We hereby confirm that WD-40 Company Limited is a distributor and downstream user of chemicals and is not currently responsible for registrations under the EU and UK REACH regulations. We actively monitor the regulatory status of the substances and mixtures in our supply chain to ensure EU and UK REACH obligations have been met.

WD-40 Company Limited has submitted DUIN's for substances imported into Great Britain at 1 tonne or more per year, enabling us to benefit from the transitional period to defer our registration obligation for 2, 4 or 6 years, depending on the substance tonnage band and/or hazard profile. WD-40 Company Limited is actively working with

Please note that the above information is correct to the best of available knowledge at the time of writing. The product must be applied in accordance with the conditions specified in WD-40 Company Limited technical data sheet and/or any other instructions from WD-40 Company Limited.

suppliers to remain as a downstream user and distributor of chemicals within the context of UK REACH, thus removing future importer responsibilities.

SCIP (Substances of Concern In articles as such or in complex objects (Products))

This is to confirm that products currently supplied from WD-40 Company Limited product range, including WD-40® Multi-Use Product, WD-40 Specialist® range including Motorbike and BIKE, GT85®, 3-IN-ONE®, and 1001®, do not contain SVHCs above 0.1 % (w/w) in any 'article' sub-component part.

Guidance on the compilation of safety data sheets (SDS's)

This is to confirm that all product EU SDS's currently supplied by WD-40 Company Limited are compiled in accordance with Regulation (EC) No. 1907/2006 (REACH), Annex II.

Classification of substances and mixtures

This is to confirm that all products currently supplied by WD-40 Company Limited are classified and labelled according to Regulation (EC) No. 1272/2008 (CLP).

Directive 94/62/EC on Packaging and Packaging Waste (as amended up to Commission Directive 2018/852 of 30 May 2018)

With reference to Article 11 of Directive 94/62/EC, concentration levels of heavy metals present in packaging: These regulations require that packaging and packaging components meet certain essential requirements, including levels of heavy metals (cadmium, chromium VI, lead, and mercury).
Whilst lubricants, greases, and detergents, are not packaging components in the context of this legislation, we can confirm that these four heavy metals are not intentionally added to products manufactured by WD-40 Company Limited. Although, it is possible that trace quantities of these components may be present in our raw materials, we would expect that the total level of cadmium, chromium VI, lead, and mercury, would be within the requirements of this regulation.

Carcinogenic, Mutagenic, or Reprotoxic (CMR) Substances

This is to confirm that the products currently supplied from WD-40 Company Limited range including WD-40® Multi-Use Product, WD-40 Specialist® range, including Motorbike and BIKE, GT85®, 3-IN-ONE®, and 1001®, do not contain any intentionally added substances classified as carcinogenic, mutagenic, or reprotoxic, in concentrations ≥ 0.1 % (w/w).

Please note that the above information is correct to the best of available knowledge at the time of writing. The product must be applied in accordance with the conditions specified in WD-40 Company Limited technical data sheet and/or any other instructions from WD-40 Company Limited.

EU Directive 2015/863 (RoHS Regulation)

The EU Directive 2015/863, also known as RoHS III, bans the placing on the EU market of new electrical and electronic equipment containing more than the agreed levels of following substances:

- Lead
- Cadmium
- Mercury
- Hexavalent chromium
- Polybrominated biphenyls (PBB)
- Polybrominated diphenyl ethers (PBDE)
- Bis(2-Ethylhexyl) phthalate (DEHP)
- Benzyl butyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

This is to confirm that these 10 substances are not intentionally added components in the manufacture of WD-40 Company Limited product range including WD-40® Multi-Use Product, WD-40 Specialist® range, including Motorbike and BIKE, GT85®, 3-IN-ONE®, and 1001®. Therefore, it is expected that these products will meet the requirements of EU Directive 2015/863/EU.

Regulatory Compliance
