HTC20CNC used (year 1993)

HCF-210
Conveyor
furnace

HCF-260AL
Conveyor
furnace with
energy-saving
algorithm

HB9
Countertop
furnace with
ventilated
heating chamber

**FTC-310B + FAN +
OWS10**
Conveyor belt with
metal belt, cooling
fan and load cell (Max
10Kg) integrated

**FTC-300B+
FAN**
Conveyor belt
with metal belt
and fan for
integrated
cooling

PCR-50
Part collector
with rotating
chute with the
possibility of
maximum 12
stops

PCL100
part collector
with load cell

MINIMALIST 6

MADE IN ITALY

MINIMALIST 6

Wire bender 2.0 mm – 6.35 mm with 3 axes and 3D human-machine interface software with simulation and collision control

During the open house you will also have the opportunity to attend a live demonstration of the Bender MINIMALIST 6 machine, the result of our new collaboration with OMCG Italia s.r.l. Thanks to this partnership, Manentimacchine s.r.l. is now the official agent for spring factories throughout Europe, offering increasingly innovative and high-performance solutions for the sector.
