

We worked hard to reach this hardness.

The coating for capstans Diamond 3000 can now reach an extremely high hardness, to satisfy all wire drawing needs.

Diamond 3000 can be applied to both new and used wire drawing capstans:

- strong grip
- hardness from 60 to 66 HRC
- low roughness
- excellent heat diffusion
- best value for money

And for non ferrous wires,
we produce sintered ceramics
with different features

Hall 11 Stand B22
