Shopping for speed on eBay.com

Optimizing the performance of eBay's sites and apps for a faster user experience.

web.dev

Speed was a [company-wide initiative](#) for eBay in 2019, with many teams determined to make the site and apps as fast as possible for users. In fact, **for every 100 milliseconds improvement in search page loading time, eBay saw a 0.5% increase in "Add to Cart" count.**

100ms

0.5%

Increase in "Add to Cart" count

Through the adoption of [Performance Budgets](#) (derived after doing a competitive study with the [Chrome User Experience Report](#)) and a focus on key [user-centric performance metrics](#), eBay was able to make significant improvements to site speed.
