High-Quality Scratching Posts for large Cats:

Our scratching posts for large cats come with an extra soft and hard-wearing cover due to its high plush density. They are durable thanks to their posts being fully glued over the entire surface and wrapped in extra thick sisal rope. Heavy base plates and large post diameters ensure a good stand and high stability. The large padded platforms also offer ample space.

Wall Landscapes for Cats

Cats are inquisitive climbing champions. With the TRIXIE climbing elements, velvet paws can enjoy abundant climbing activities and extend their living space to higher areas. All the climbing elements for wall mounting can be combined in a multitude of ways and are easy to integrate into your living space creating an adventure course with places to rest high up. For endless combinations! As there are many different types of materials for walls, screws for wall mounting are not included. Further information on the climbing elements via the QR code.
