Lighting: The new standard

MultiLux LED

Including lighting media

- LED DAY – 9000 K
- LED NATURE – 6500 K

Replaceable LED tubes

Optimum light spectrum for plants and fish

Energy saving

Aquariums with state of the art lighting

The JUWEL System

Filtration: The heart of a JUWEL Aquarium

The Bioflow Filtration System

EccoFlow

Circulating pump

Highly-efficient and whisper-quiet flow pump of the new EccoFlow generation with double-mounted impeller axle.

Adjustable heater

Invisible adjustable heater that is integrated in the water circuit.

Filter Media

Optimum filtering thanks to the perfectly coordinated filter media.

bioPad
Filter floss

bioCarb
Active charcoal sponge

Nitrax
Nitrate remover

bioPlus coarse
Coarse-pored filter sponge

bioPlus fine
Fine-pored filter sponge

JUWEL Aquarium

Aquariums of the highest quality from Germany

For more than 50 years JUWEL Aquarium has been synonymous with quality and innovation in aquarium manufacturing and thus sets standards in design and technology. Emphasis was placed on a systems concept right from the start.

We therefore developed the technology required for the successful operation of an aquarium from early on and our first brand was able to offer a range of aquariums with components that are all perfectly compatible with each other.

We have remained true to this principle, so that today, JUWEL Aquarium is synonymous with high-quality system aquariums, ultra-modern technology and the highest quality standards.

To this day, an experienced team is constantly working with great enthusiasm to create a beautiful home for your fish. This performance has made us the brand of the century as well as Europe's no. 1 aquarium brand.
