

Pato Sledge Stool

Designed By Welling / Ludvik, 2016

Pato is a versatile chair concept based on a shell in 100% recycled polypropylene, which is also available fully upholstered and with a wide range of bases. Pato Stool is a stackable barstool featuring a downscaled seat without back, in the same design as the larger Pato chair shell. Keeping material flows as clean and recyclable as possible, the Pato components are kept homogeneous to a degree where they can be recycled in the future as needed.

MODEL

4310 - Polypropylene seat
