3. Qualification

3.1 General

3.1.1 Qualification standards
The qualification standards will be established before each season, based on an agreement with the Committee for Alpine Skiing.
The standards cannot be modified during the season.

3.1.2 Ladies and men’s qualifications
These standards can be different for ladies and men's events.
3.2 Basic quota
Each National Ski Association affiliated with FIS may enter one (1) competitor (exception for Alpine Combined and parallel events) in FIS World Cup races taking into consideration the following conditions:

Slalom / Giant Slalom / parallel events:
Minimum requirements:
Maximum 120 FIS points in one of the five events (SL, GS, SG, DH, AC) on the valid FIS points list.

Downhill / Super-G:
Minimum requirements:
Maximum 80 FIS points in the respective event according to the valid FIS points list (valid also for 500 points competitors and those qualified from Continental Cups).

Alpine Combined (AC)
Minimum requirements:
For Alpine Combined with DH a maximum of 80 FIS points in DH is required and for Alpine Combined with SG a maximum of 80 FIS points in AC, SG or DH is required.
Only for Ladies events: National Ski Association, whose quota is six (6) or less competitors, (Basic quota one (1) + national quota five (5)) may participate in each Alpine Combined with a maximum of six (6) competitors. These competitors must only fulfill the minimum requirements.

3.3 National quota
For each event a national quota is calculated periodically according to the World Cup Starting List (WCSL). The periods are adapted to the respective calendar planning and fixed before the start of the competition season. The quota is established on the basis of the number of competitors per nation, classified within rank 1 to max. 60 of the WCSL in the event concerned. There is no moving up.
A National Ski Association may enter a maximum of eight (8) (seven (7) for Men’s competitions) additional competitors (under consideration of art. 3.2).

3.3.1 Replacement of competitors
Qualified competitors from within the national quota can be replaced by competitors ranked within the first 60 of the WCSL or within the first 120 of the valid FIS points list, each in the respective event, or by competitors who have at least 500 WCSL overall points (if the conditions according to art. 3.2 are fulfilled).

3.4 Higher quotas for organising countries
In all countries that organise FIS World Cup races, the National Ski Association, whose quota is less than six (6) competitors, (Basic quota [1] + National quota [5]), may participate in each race with a maximum of six competitors (1 + 5).
Qualified competitors of a Continental Cup (art. 3.8) of the organising Country are included within the maximum number of six (6) participants.

3.4.1 Points limit
For higher quotas, only those competitors are admitted who are classified within the first 350 on the valid FIS points list in the respective event.

3.5 Number of participants at the race / Downhill training
A team may enter a maximum of nine (9) Ladies and eight (8) Men’s active competitors for each event (not included are competitors from art. 3.8).
For teams up to a size of 7 qualified competitors, 2 additional competitors are allowed to participate in the official training for Downhill and double Downhill.
For teams of 8 and more qualified competitors, 3 additional competitors are allowed to participate in the official training for one Downhill, 4 in case of two Downhill competitions.

These additional competitors for training must fulfill the minimum requirement of a maximum of 80 FIS points in Downhill.

3.5.1 Quotas for DH and AC training
In case of DH and AC at one site, the maximum number of competitors entered for training may not exceed the higher quota (basic quota + national quota + COC winner + additional competitors for training) plus 50%.

3.6 Limitation for SL / GS / DH in 2 runs
Limitation for the 2\textsuperscript{nd} run (Slalom / Giant Slalom / DH):
Only the first 30 competitors from the 1\textsuperscript{st} run are qualified.
This limitation is not valid for the Alpine Combined (see art. 9.5.1).

3.7 Combined
Winner of the combined is the competitor who has the best overall time (sum of his times in the events counting for the Combined).

3.7.1 Participation requirements
All competitors must fulfill the requirements of participation in the single events counting for the Combined, according to quotas and points (indication: K).

3.7.2 Additional competitors
For a Combined, the National Ski Association can enter additional competitors (indication: ZK) according to a special quota. The higher quota of the event concerned is always valid. The additional competitors entered have to be classified within the first 30 of the actual WCSL in at least one of the events concerned, or have at least 500 WCSL overall points, and fulfill the requirements of art. 3.2 in the second event. Therefore, competitors with the indication ZK must be the same ones in both events.

If a competitor who is entered for a FIS World Cup Combined in the ZK-quota, does not finish the first event of the Combined correctly, he must participate within the special quota in the second event.

3.7.3 Organisation of the Combined
All competitors entered for the Combined who finish the first run are qualified for the second run.
All competitors who are classified in the Downhill and in the Slalom will be classified in the Combined and receive the corresponding World Cup points (restrictions: see art. 10.2).
For the allocation of FIS and World Cup points, the rules for Slalom are valid.

3.8 Qualified competitors of the Continental Cups
EC 3, NAC 2, FEC 1, SAC 1, ANC 1

3.8.1 Qualification for the FIS World Cup of the COC Overall Winners
Qualified competitors of the Continental Cups according to the Continental Cup rules qualify to start in the respective events of the FIS World Cup in addition to the national quota in the season following the result (Southern
Hemisphere: same season) if they are classified within the first 350 of the valid FIS points list in the event concerned. Their costs for accommodation, food and beverage must additionally be paid by the Organising Committee. If the COC overall winner is already qualified in the event concerned, the National Ski Association cannot apply for an additional starting spot for the overall winner.

3.9 **Registration and entries**

National teams must use the FIS online registration system for entries and FIS season accreditation requests. The Organisers are only allowed to accept entries submitted within the communicated deadlines and through the FIS online entry system. Team entries without participating athletes will not be considered.

4. **Payment of expenses**

4.1 **Competitors**

4.1.1 **Quotas**

Accommodation, full board and beverages have to be paid by the Organisers for all competitors according to the World Cup quotas published by FIS, provided that the competitors participated on the competition day. If a competitor is injured after his arrival on site, the costs will be paid after presentation of a medical certificate. However this is only valid for competitors who according to the rules are qualified for the competition itself. The quotas for the payment of accommodation, full board and beverage are calculated on the basis of the national quota (maximum eight competitors per event). If a team has a national quota, the OC must also pay for the competitor of the basic quota.

The expenses of the competitors who started with 500 WCSL points (or more) and qualified competitors of the Continental Cups (art. 3.8.1) are also included.

4.1.2 **Duration**

All expenses for accommodation and food incl. non-alcoholic beverages must be paid according to the precisions below, from at least the night before the first official training day / official free skiing, until the morning after the last competition at which the competitor participated. This is also valid if the races do not take place on consecutive days. Under no circumstances is the Organiser or the hotel manager allowed to demand the vacating of the rooms by the teams on the day of the competition.

**Precision:**

For participation at an event with:

- one downhill or Alpine Combined with DH = 4 days, 5 nights*
- one downhill + SG, or + GS or SL, or + a second Downhill or + Alpine Combined with DH = 5 days, 6 nights*
- one technical event or SG or Alpine Combined with SG = 2 days, 3 nights
- two technical events or one technical event + SG or + Alpine Combined with SG = 3 days, 4 nights
- three competitions incl. at
least one DH = 6 days, 7 nights*
three competitions without DH = 4 days, 5 nights
Alpine team event = 1 day, 2 nights
*if less than three DH training days are scheduled the duration can be reduced.
(Individual parallel events are regulated as SL or GS)

Arrival/Departure
The Organiser only has to pay for the accommodation and full board according to the World Cup rules.
Only if an earlier arrival date is requested by the team leader according to art. 4.5, he may make an agreement with the Organiser regarding the duration. In any case the above mentioned precisions cannot be extended. Additional costs due to an early arrival or a late departure have to be paid by the teams.
In case of late arrival or early departure there is no right of compensation. In necessary cases, the Chief Race Directors can decide special agreements.
Upon request of a Team Captain the Organiser (or Hotel) must hand over a corresponding confirmation after regular settlement is made. The confirmation is valid for the group of persons registered through the FIS online system.

4.1.3 Precision
Latest when the start lists are ready, the Organiser must hand out to the Team Captains a voucher which shows the total number of nights for free accommodation and full board (art. 4.1 & 4.2) and the total number of persons (art. 4.3) who pay the maximum price of CHF 120.-- for accommodation and full board.

4.2 Officials

4.2.1 Quota
For officials of teams with a national quota respectively competitors with 500 WCSL points (or more), the costs for accommodation, full board incl. non-alcoholic beverages must be paid as follows (taking into consideration art. 4.1.1, 2nd paragraph):

<table>
<thead>
<tr>
<th>Team size</th>

<th>Officials</th>
<th>Official quota</th>

<tbody>

<td>6</td>
<td>7</td>
<td>7</td>
<td>7</td>
</tr>
<tr>
<td>7</td>
<td>8 and more</td>
<td>10</td>
<td></td>
</tr>
</tbody>
</table>

Precision:
In case of an event with one or more Downhills resp. SG, AC or an event with one or more technical events, costs must be paid for the higher event quota (max. 10 persons) from the official day of arrival until the day of departure after the last race.
In case of an event with DH, SG or AC in connection with GS or SL, costs must be paid for the higher event quota + 50% (rounded up / max. 15 persons) from the official day of arrival until the day of departure after the last race.
4.2.2 **Duration for payment of expenses**

The duration for the payment of expenses as well as the regulation of arrival / departure must correspond to the regulation for competitors as mentioned in art. 4.1.2. During this period allocation of single rooms per team must be made according to the following table:

<table>
<thead>
<tr>
<th>1 to 3 officials</th>
<th>= 1 single room</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 to 6 officials</td>
<td>= 3 single rooms</td>
</tr>
<tr>
<td>7 officials or more</td>
<td>= 5 single rooms</td>
</tr>
</tbody>
</table>

4.3 **Additional officials / Service Personnel**

The total number of additional officials and / or service personnel per country registered through the FIS online entry system is limited for each event and depends on the total number of different athletes who started in training and competitions:

<table>
<thead>
<tr>
<th>up to 3 different competitors</th>
<th>7 persons</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 - 6</td>
<td>10 &quot;</td>
</tr>
<tr>
<td>7 - 10</td>
<td>12 &quot;</td>
</tr>
<tr>
<td>11 - 15</td>
<td>18 &quot;</td>
</tr>
<tr>
<td>more than 15</td>
<td>23 &quot;</td>
</tr>
</tbody>
</table>

For these additional officials / service personnel accredited by FIS, the maximum price that can be charged for accommodation with full board incl. non-alcoholic beverages must not exceed CHF 120.-- per day (or the equivalent) if these persons are registered through the FIS online by the corresponding Team Captain and the accommodation is arranged by the Organising Committee (team accommodation). This limited group of service persons who are registered online in principle have the access right to the start area and eventual catering tent / team hospitality for athletes.

In case of a justifiable suspicion of abuse, the OC has the right to ask the Team Captains to present the relevant FIS season accreditations.

4.3.1 **Ski Racing Suppliers (SRS)**

Ski Racing, Management and Marketing personnel with a FIS ID card which are not directly related to a national team cannot be entered for World Cup events by a national team. These officials must be entered by their company, using the FIS online entry system mandatory, based on the actual SRS name list.

4.5 **Right of accommodation**

Each National Ski Association has to announce to the Organisers the expected total number of team members (competitors, coaches, accompanying persons and service personnel) five (5) weeks before the first event and furthermore the Organisers must be informed latest seven (7) days before the official 1st training (speed) or event (tech) about the names of the team members, eventual changes to the arrival date and the originally registered size of team (incl. officials and service personnel according to art. 4.4), as well as an eventual withdrawal from the event. If this is not done, the Organising Committee will invoice the costs incurred for canceled accommodation (art. 4) to the National Association concerned.

Teams or persons who register late have no right for the reservation or the payment of accommodation expenses.

4.5.1 **Guests**

The National Ski Association may enter guests and additional accompanying persons of the team through the online entry system.
The guests and additional accompanying persons of the teams are not basically having the right of accommodation at the Team's lodging. The Organiser may offer special packages (accommodation, transportation, etc.) through their guest hosting program. National Ski Associations must request and agree to the terms from the Organising Committee minimum 7 days prior to the official arrival day.

4.5.2 Maximum price at the World Cup Finals
For stakeholders (not directly related to a national team) and/or special quests of the FIS Alpine World Cup, that are officially entered according to the announced entry deadlines, and whose accommodation has been reserved through the LOC, the maximum price for accommodation with half board shall in any case not exceed the maximum price of CHF 250.--.

4.6 Quality of accommodation:
The Hotels for the teams must at least meet the requirements of the international three star category. Breakfast and dinner must be served at the actual Hotel if possible. The Chief Race Director will decide during his summer inspections whether alternatives are acceptable.

4.6.1 Ski rooms:
The Organising Committee must make available heated working facilities (facilities in the hotels, containers, separate facilities in larger infrastructures) to prepare and store skis and other ski equipment. These facilities shall have a surface of minimum 15 m² (reference surface for two workstations) with height of 2.40m. They shall be equipped with sufficient power and electricity sockets and be adequately ventilated. They shall be lockable. Such facilities can be requested only for team and SRS service personnel specified as servicemen (servicemen code) on the online entry (4.3) or on the FIS approved SRS list. These facilities must be available from the official arrival date.

4.6.2 Waiting Room:
The OC has to put at the disposal of the competitors a special heated and separate waiting room near the start or finish area in which the competitors can stay during training intervals and/or between the two runs of a competition. No separate waiting room has to be organised if the finish area or means of transport to the start are within the resort itself.

4.6.3 Team Hospitality
The Organising Committee is required to provide appropriate team hospitality at the competition site(s) for the athletes, coaches and service personnel. The team hospitality area should be large enough to enable these team members to prepare and/or relax in a secure, comfortable environment. The area should be equipped with adequate seating, heating, and provide healthy warm and cold food and beverages and proper reserved washroom facilities near by. Furthermore heated and separate waiting room(s) have to be put at the disposal of the competitors near the start area(s) in which the competitors can stay during trainings, respectively between the two runs or heats of a competition.

4.7 Full board and beverages

4.7.1 Quality and quantity of meals
Food must be healthy, plentiful and correspond to the needs of highly competitive athletes. The meals must meet at least the following guidelines:
Breakfast: Bread, butter and jam, milk, coffee with milk or tea. Choice of eggs, cheese, sausages and different kinds of Muesli", yoghurt and fruits (breakfast buffet).

Lunch: Choice of at least two menus: Soup or appetizer, 200 g meat (steak, etc.) poultry or fish, in agreement with the teams. Vegetables or other supplements, cheese, fruit or deserts.

Dinner: Same as lunch.

A sufficient quantity of non-alcoholic beverages are to be included with the meals. Furthermore in agreement with the Team Captains the hotels have to serve a small snack (tea and sandwiches) in the afternoon.

4.7.2 Mealtimes
The hotel must adapt itself to the needs of the schedules which depend on the training and competition program. For instance, for Slalom and Giant Slalom events, in general, breakfast is served very early in the morning. For Downhill, daily training is over at approx. 2:30 p.m. and the hotel must be able to provide hot meals on the return of the racers and their coaches.

4.7.3 Place of meals
Breakfast and dinner must if possible be served at the actual hotel. The Chief Race Directors will decide during their summer inspections whether alternatives are acceptable.

4.7.4 Information of agreement
The OC is responsible for informing the hotel management of the agreements with regard to accommodation, full board and of the daily program, including eventual changes.

4.8 Final
Special regulations are valid for the Final.

4.8.1 Duration of payment

JOB DESCRIPTION OF THE RACE DIRECTORS AND THE TECHNICAL DELEGATE IN ALPINE WORLD CUP EVENTS

Chief Race Director as Referee and Race Director as Assistant Referee; art. 1.1 of the Alpine World Cup Rules and art 601.4.9 ICR

I. Fundamentals

1. Due to the implementation of separate set of rules valid for events of the Alpine World Cup, the Chief Race Director assumes the job of a Referee while the Race Director takes over the position of the Assistant Referee. The fact that the Referee has the final decision results in a shift of authority, regarding mainly the technical realm (that is the areas blocked off for the time of the race, namely starting area, track, finish line), whereas the Technical Delegate are involved in administrative tasks (meaning the total field of work with the exclusion of the technical part).

2. In order to avoid conflicting authority it seems advisable and necessary to provide a detailed job description.

3. In individual cases it will depend whether a decision, responsibility or other authority refers more to the technical or rather to the administrative domain. In all critical cases, that is in cases where the Technical Delegate as well as the Chief Race Director are competent to make certain decisions, the final decision lies with the Chief Race Director, meaning his decision concerning the authority is binding. However, the Chief Race Director should by all means avoid assuming authority which clearly falls into the technical area.

4. However, there are certain tasks and responsibilities which according to the given set of rules are directed towards both the Race Directors (Referees and Assistant Referee) and the Technical Delegate; the shift authority is therefore twofold:
   a) the Chief Race Director takes over the job of the Referee, assigned to him according to the ICR
   b) he takes over some tasks of the Technical Delegate as well, assigned to him by the ICR, limited however to the technical aspect of this work (as Referee he is the chair person of the Jury as well).

According to the World Cup rules, the Race Director assumes the tasks of an Assistant Referee. In this position he has the final decision regarding the technical equipment and the implementation of safety measures on the race track. These rules are valid for the Olympic Winter Games as well as for World Championships.

5. The following is an attempt to illustrate what kind of activities are assigned to the Chief Race Director, the Race Director and the Technical Delegate which ones can be assigned to all of them, according to existing rules valid for the Olympic Games, World Championships and World Cup.

II. The Chief Race Director

1. Art. 601.4.5
   - He is the chairman of the Jury. He conducts the meetings
   - 601.4.5.4 in the case of a tie , his has the casting vote.

This is on the explicit condition that the necessary homologation measures can be fulfilled. For Downhill and Super-G there is only the possibility of shortening the run on a homologated course. The minimum prescribed vertical drops must, however, be observed in every case.

During the race the TD must:

   - observes that the valid rules and directives with regard to advertising on clothing and race equipment are obeyed
   - supervise the technical and organisational conduct of the event
   - advise the organisation concerning the observance of the FIS Rules and regulations and directives of the Jury

After the race the TD:
   - helps with the compilation of the Referee's report
   - calculates the race and penalty points for the individual races. If these points are calculated by computer, it is the TD's duty to re-check the points and to confirm their accuracy with his personal signature. Above all he checks the correct use of the corresponding F value for each event.

- Has the right to propose to the Jury the exclusion of competitors from participating in the race.
- Has the right to obtain support from the Organising Committee and all officials under its jurisdiction in all matters necessary for the fulfilment of his duties.

V. Common Authority

These are resulting from the general rule mentioned earlier on; it is possible that in individual cases the Chief Race Director or the Race Director has to take other tasks than the ones assigned to him, for instance the inspection of homologation files, inquiries regarding special permits, inspection of TD reports concerning former events held in that particular location as well as the checking of proposed improvements and the filing of the referee minutes, etc.
Most of all, it seems important that all leading officials in a World Cup event approach their tasks with discernment and courage and with a commitment to co-operation and co-ordination. Of course, an unanimous decision is always the best one. The most important rule is that the Technical Delegate is respected as the official representative of the International Ski Federation at the place of the competition and as such has to fulfill all tasks associate with this position, including that of, for instance, representation of the FIS.
