#### 4.1 Starting order

For each individual leg of the heat the competitor, who is listed first or respectively on top of the pairing, will start on the red course for his first run. Following the order in the bracket, from top to bottom, all groups race in succession. For the second individual leg of the heat, the competitors change courses. All subsequent runs are conducted using this system.

Team captains must announce the names of the competitors for the first round 10 minutes prior the start, for all other rounds according to the race program. The lower ranked nation always announces first.

#### 5. Points Scoring

- The winner of each individual leg scores 1 point for his/her nation
- In case of a tie of an individual leg, both nations are awarded 1 point
- If there is a tie at the end of the heat (2:2) the nation with the lowest combined time of the best individual lady and the best individual man (or second best in case of a tie for the best time) will win the heat.
- If the teams cannot be separated by combined times, the team with the fastest single time is the winner. If the teams cannot be separated by fastest time, the nation with the better ranking on the board is the winner.
- Reasons for disqualifications (immediate and without protest):
  - False start
  - Changing from one course to another
  - Interfering with the opponent, voluntary or not
