## CANDIDACY PHASE AND PROCESS

After closure of the submission for candidacies by 1<sup>st</sup> May 2019, FIS will simultaneously provide each Candidate and its National Ski Association with a detailed questionnaire for completion at its earliest convenience, latest by 1<sup>st</sup> September 2019.

The Candidates responses to the questionnaire are to be submitted in a simple text format, and will serve as a working document outlining different areas of the candidacy project, on which the discussions with the members of the FIS Inspection Group will be based.

Members of the FIS Inspection Group will each meet with the Candidate at a mutually convenient opportunity to review the specific area of the project which falls under their responsibility. This should take place in conjunction with another event or a World Cup inspection, in order to save multiple trips and reduce costs.

A working meeting with the FIS Inspection Group members will be organised, in principle during (before or after) the FIS Technical Committee Meetings in the autumn for each Candidate to summarise their project concept for the 2024/25 FIS World Championships.

After the inspections or meetings with the Candidates by the members of the FIS Inspection Group and the joint summary meeting, the Candidate will finalize the documentation relating to its project for the 2024/25 FIS World Championships and the Inspection Group will establish its report.
