Legal basis for processing

Art. 6 sec. 1 p. 1 lit. a GDPR serves as the legal basis for our company for processing operations in which we obtain consent for a specific processing purpose. If the processing of personal data is necessary for the performance of a contract to which the data subject is a party, as is the case, for example, in the case of processing operations necessary for the supply of goods or the provision of any other service or consideration, the processing shall be based on Article 6 (s) 1 lit.b GDPR. The same applies to such processing operations that are necessary for the implementation of pre-contractual measures, for example in cases of enquiries about our products or services. If our company is subject to a legal obligation that requires the processing of personal data, such as the fulfilment of tax obligations, the processing is based on Art. 6 sec. 1 lit.c GDPR. In rare cases, the processing of personal data may be necessary to protect the vital interests of the data subject or another natural person, Art. 6 sec. s. 1 lit. d GDPR. Ultimately, processing operations could also be based on Article 6(1) lit. f GDPR. This legal basis is based on processing operations which are not covered by any of the aforementioned legal bases where the processing is necessary to safeguard a legitimate interest of our company or a third party, provided that the interests, fundamental rights and freedoms of the data subject do not prevail.
