

Product Information

FT-10 enclosure

Scope

New stainless-steel enclosure for FT-10 family devices.

Description

The FT-10 family is a fast and powerful indicator developed as a panel type instrument. Many customers appreciate its advantages and some of them wish to use it as a stand-alone instrument **outside a cabinet**. Now offering a stainless-steel enclosure for FT-10 we can fulfil their wish.

The cable entries are positioned at the bottom back part for easy cabling and water entry protection.

The enclosure is IP65 rated.

The dimensions in mm without mounting bracket / incl. mounting bracket:

	Without mounting bracket	Incl. mounting bracket
Width	130	
Height	75 (96 incl. cable glands)	122
Depth	147	194
