21st day of March, 2024.

TO WHOM IT MAY CONCERN

This is to certify that **Fluidsignal Group S.A.**, (**811028514-8**), is currently using our Continuous Hacking service. Specifically, this customer has been subscribed to the **Squad** plan for their software/system **ASM's continuous security testing** since **13th day of December, 2018**. In this plan, comprehensive security tests (SAST, DAST, SCA, CPSM), as well as Manual Penetration Testing (MPT), have been performed.

As of date, the results of the service are as follows:

Severity (CVSS 3.1)	Reported Vulnerabilities	Remediated Vulnerabilities	Accepted Vulnerabilities	Remediation Rate
Critical (9.0 - 10.0)	0	0	0	N/A
High (7.0 - 8.9)	138	138	0	100%
Medium (4.0 - 6.9)	6223	6174	5	99.2%
Low (0.1 - 3.9)	7088	6914	1	97.5%

All of our customers continuously work to fix reported vulnerabilities. **Fluid Attacks** verifies such fixes to confirm their software and systems no longer have those security defects.

During the service period, **Fluid Attacks** has reported a total risk exposure of **57368** in this software/system. **Fluidsignal Group S.A.** has remediated **99.7%** of that exposure.

Head of Delivery

Fluid Attacks Inc.

Annex: Target of Evaluation for software/system **ASM's continuous security testing**
