

ELEMENTS *by* HUNTWOOD

Frameless Cabinetry

ELEMENTS by Huntwood

Huntwood created Elements for discerning homeowners who appreciate clean lines, contemporary design and heightened functionality. We provide a level of flexibility and customization previously unavailable in the cabinet industry.

All Styles

From traditional to ultra-modern contemporary, our super-flexible and customizable selection can achieve nearly any desired aesthetic!

High-Tech Materials

Modern door styles in engineered veneer, acrylic, melamine, super matte PET and laminate go perfectly with

quartz countertops and stainless steel appliances.

Full Accessibility

With Elements' frameless construction, the face frame is eliminated, maximizing your storage space and providing unobstructed access. Efficiency is increased by including our large selection of convenience cabinets and accessories.

Trust in the Leader

Why do builders and homeowners choose Huntwood over other cabinet brands? Because for over 35 years, we've provided our customers with more flexibility, more choices and more craftsmanship.

And, as the West's leading cabinet manufacturer, our

volume buying power and high-tech efficiency produce more value for our customers.

A Green Commitment

Huntwood cabinets are manufactured with the utmost concern for the environment, using sustainable resources and recycling excess materials, with 80% reused in future applications. Our award-winning finishing process greatly reduces VOC emissions.

Built to Last

Because no two kitchens are alike, we build every kitchen to order. Huntwood uses quality materials and components many manufacturers offer only as upgrades...so your kitchen will last for decades.

Hi-Gloss Acrylic

High-Gloss Acrylic Doors feature a 3/4" thick slab MDF core with a high gloss acrylic on face and back. This super-tough material is incredibly durable and scratch resistant.

1mm thick compatible Gloss PVC Edgebanding on door edges. Doors have integrated finished ends, backs and bottoms, all made of 2-sided exterior color material. Slight differences in sheen may exist between door material and PVC edgebanding.

LeMans 7

winterland

Super-Matte PET

Super-Matte PET Doors feature a 3/4" thick slab MDF core with a no sheen, PET material on face and back. This material has a super-soft texture and is incredibly scratch, stain, UV and moisture resistant.

1mm thick compatible Matte PVC Edgebanding on door edges. Doors have integrated finished ends, backs and bottoms, all made of 2-sided exterior color material. Slight differences in sheen may exist between door material and PVC edgebanding.

Engineered Veneer

Engineered Veneer Doors feature the natural beauty and warmth of veneer over an industrial grade particleboard core, providing the look of exotic woods without any harvesting of endangered species.

2mm Wood Edgebanding. Includes matching backer. Edgebanding is applied to the interior core edges, captured between face and back veneer. Matching vertical grain on both doors and drawer fronts.

ATHOS, Engineered Veneer, Teak.

Natural Wood Veneer

Wood Veneer Doors come in a variety of natural hardwood veneers, and most of the stain colors shown here are available in all eight wood species. When combined with our array of special finishes, the selection range is nearly endless.

*1mm matching Wood Edgebanding. The **NAPOLI** door has vertical grain on drawers and doors; grain matched within individual cabinets.*

NOTE: Colors shown in this brochure are approximate and will vary from actual physical colors due to photography and printing limitations. Please see a current sample door or color chip in your desired color option before ordering cabinets. Door styles, wood species and colors may be discontinued at any time without notice.

Built to a Higher Standard

Strong Cabinet Box

3/4" cabinet boxes and solid wood top stabilizer bars provide extra strength.

Lasting™ Touch Finish

12-step conversion varnish process is the toughest finish in the industry.

Dovetail Drawers

Strong 5/8" thick solid wood drawers. Drawers and doors receive permanent bumper pads.

Concealed Guides

Smooth operating, steel-reinforced guides include Soft-Close.

110° Clip-on Hinges

6-way adjustable hinges feature wider accessibility and Soft-Close.

Melamine NDure® Interior

Super-durable. Resists scratches, heat and water. Birch or White. Plywood Maple also available.

Superior Construction

With frameless construction, the face frame is eliminated, maximizing storage space. Our 3/4" case construction is 20% thicker than industry standard, providing extra strength.
