FEATURES AND BENEFITS

- *Developed to Dominate the Soft Market - Because we are the leader in Solution-Dyed PET, our investments in extrusion allow us the ability to bring more value to the soft market*
- *Enhanced Softness - Our Next-Generation of PureColor® fiber has 60% more filaments than our traditional fibers for a softer hand*
- *Bigger Denier Size - This new fiber is 30% bigger than our bestselling soft fibers which translate to more bulk and apparent value.*
- *Designed and Made in the USA - Our new fiber is extruded, tufted and finished in the USA and does not rely on imported yarns*

Sales Force Sample Ship Date: 2/29/24

Displays: 18" x 28" Display Cards

Brand: DreamWeaver®

SPECIFICATIONS

Construction: Cut Pile

Fiber: 100% PureColor® SD BCF Polyester

Weight: 45 | 60 | 70

Width: 12'

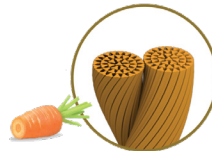

Primary/Secondary Backing: Polypropylene

Pattern Repeat: N/A

Colors: 10 Solid Colorways

PureColor® is our proprietary brand of solution-dyed fiber. This unique fiber technology provides vibrant, high definition visuals resulting in inherently vivid, durable carpets that won't stain, fade or bleach.

With **PureColor**, the color penetrates the fiber like the orange of a carrot.

The color on traditional carpet fibers sits on top like the red skin of a radish.
