

HydroGen 8

Wider Than Ever. Still Waterproof.

Enhance your space with the majestic allure of expansive and seamless HydroGen 8. The extra wide planks and a refined pressed bevel edge offer a luxurious and polished look while remaining durable enough to handle anything life throws at it.

NIMBUS CORE

FLEXIBLE COMPOSITE TECHNOLOGY

Nimbus Core provides better stability performance than traditional WPC. The material flexibility feels better to walk on, easier to install and superior locking engagement.

Comfort you can feel with an airy structure that allows the registered embossing to sink deeper, giving rise to a more authentic natural wood visual. The extra wide planks have a refined pressed bevel edge.

TRUESHIELD

ARMOUR FOR EVERYDAY LIFE

TrueShield flooring's coating layer provides scratch, stain and wear resistance. Biyork's proprietary wear layer blend ensures enhanced protection, performance, and prolonged lifespan of the flooring.
