CARB Phase 2 Certified

- Air Quality Is Vital
- Formaldehyde is a respiratory Irritant
- CARB 2 Certification means that customers with such diseases as Asthma, Emphysema or general breathing difficulties ARE PROTECTED!

CARB 2 is a regulation created by the California Air Resources Board (CARB). The board created this as a way to prevent formaldehyde from being released into the air and reducing the air quality. If your product has a CARB Phase 2 compliant seal, you know it adheres to the standards of this regulation process.
