Framed or frameless?

Two ways to build a cabinet. Both are in this guide.

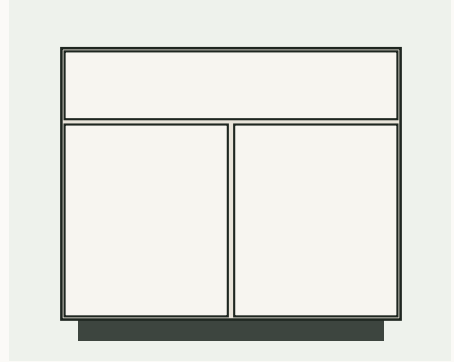

Framed

American style

- A solid wood face frame wraps the front of the box.
- Adds rigidity and a classic, furniture look.
- Doors close onto the frame; a center stile is common on wide cabinets.

Collections: Skywood, Spring, Friendswood, US Series, KCD, Fabuwood

Frameless

European style

- No face frame and no center stile.
- Full-overlay doors cover the whole box.
- Every inch of the interior is reachable.

Collections: Euroline, Friendswood Euroline, Fabuwood (Illume & Ovela)
