Quality & Integrity You Can Count On

MAINTENANCE & CARE

Vacuum often (do not use vacuums with fast rolling beater bars they can damage the topcoat)

Dust mop to keep grit and abrasives off floor, microfiber mops work best.

Blot up spills immediately to protect your floor from water damage.

Use soft protectors on chairs and furniture, we suggest the brand “EZ Glide floor protectors.”

Clean using a spray solution of hardwood floor cleaner.
** (We recommend Bona or Loba Hardwood Floor cleaner kits)

Never pour cleaner directly on your floor

Do not buff, wax, or polish your floor avoid cleaners that contain wax additives.

Never use abrasive cleaners or wet mop

Rearrange rugs and furniture periodically so the floor ages evenly.

Place mats outside and inside entrances or around sinks and dishwashers to protect your floor against spills, sand, and abrasives.

Avoid mats that prevent airflow and moisture like rubber mats or mats with dense backings.

Keep pet nails trimmed to avoid scratches on your floor.

Do not walk on floors with spike heeled or sports shoes.

Maintain indoor humidity between 35%-55%
