Circular no. 07/2026

Oslo, 17.06.2027

This circular is distributed to those who subscribe to such e-mails via our claims system, Meteor. All circulars are also published on the website of [Norwegian Natural Perils Pool](#).

Index adjustment of price list – effective from 1. January 2027

Attached is an index-adjusted price list for the valuation of the premium basis for 2027, which applies from 01.01.2027. The price list will also be available on the Norsk Naturskadepool [website](#).

The background to the price list is the [Underwriting Guidelines](#) in the Norwegian Natural Perils Pool, which specify what can be equalized, allocation of costs, reinsurance, etc. The equalization is calculated based on the companies' market share in the Norwegian Natural Perils Pool. In order to achieve the most accurate possible calculation of the companies' market share, a common calculation method has been developed for the premium basis. This is referred to as the fire insurance sum. More detailed information about the calculation of the premium basis can be found on our [website](#).

The pricelist is based on the price index for new detached houses calculated by Statistics Norway (SSB).

The index adjustments for buildings, movable property and machinery were previously issued in [Circular No. 06 2026](#) dated 15. June 2026.

Best regards
The Norwegian Natural Perils Pool

Marianne Sundvall
Managing Director

Attachment: Price list effective 01. January 2027
