

Guidance for travel on school buses

- Multiple journeys to separate year groups will not be possible so bus timings will be as usual.
- Students to wear face coverings on all buses – these cannot be provided for students.
- We advise students to wear a washable, reusable face covering. This should be stored in a plastic bag, inside students' school bags, when they are not in use.
- If a student wears a disposable face covering, this must be disposed of on arrival at school and a second face covering must be available for the journey home.
- Students should avoid touching anything, with their hands, unnecessarily on the bus eg windows, the seats etc.
- Students should sit in their own year groups as far as possible. Year 7 to sit at the front of the bus and year 11 at the back. The rest staggered in-between.
- Where possible, students should sit in the same seat on the bus each day.
- Students should face the front at all times.
- Where possible, an empty row of seats will be left between year groups.
- Buses may have hand sanitiser units at their entrance but students will ideally have their own hand sanitiser for use before boarding the bus.
- As a school we will ensure students sanitise hands before getting on the buses.
- Buses will be deep cleaned each evening but will also be cleaned at a surface level between each journey during the day.

Note: Bus passes for the 444 and 555 will be posted over the summer and all guidance from Derbyshire re bus conduct and hygiene will be included here.
