OUR KNOWLEDGE. YOUR SCORE.

Our .22 LR Rimfire Test Center in Schönebeck has the best testing conditions. The 50 m shooting range has modern computer-assisted target and evaluation equipment. A multitude of fixtures make it possible to fixate rifles and pistols in order to find the best ammunition lot for the given weapon. Our cold chamber is able to simulate temperatures of - 20° C also during the summer months, which means it is possible to select the right ammunition for biathlon.

STANDARD PLUS

Our standard training ammunition. For many years, the SK Standard Plus has been considered to be a reliable training cartridge by sports shooters across the world. Its versatility in use means it can be used in rifles and pistols. Continuous further development guarantees reliability, precision, and stability in this ammunition segment. Shooters across the world trust this entry-level cartridge for these very reasons.

PISTOL MATCH SPECIAL

Handgun ammunition for ambitious shooters. We offer our successful Pistol Match Special ammunition for the prospective marksman. Manufactured and tested according to strict quality standards, Pistol Match Special delivers higher velocity out of shorter barrels and guarantees outstanding precision and functionality. Whether you are a beginner or an established shooter, with Pistol Match Special you will be in the lead in training and competition.

RIFLE MATCH

You want to win. The SK Rifle Match is a high-performance rimfire cartridge especially developed for rifle shooting in all 50 m disciplines. It is characterized by high reliability and optimal hit performance. Whether the objective is intensive training or a competition, the SK Rifle Match delivers the perfect result. An ambitious shooter can reach any goal with this premium ammunition, manufactured with greatest care and using our top level technologies.

Convince yourself. Test the SK Rifle Match.

PISTOL MATCH

Especially developed for pistol shooters. Thanks to the close cooperation with pistol shooters, the Pistol Match developed by SK has improved and progressed continuously. Thanks to many years of experience, the quality continued to improve so as to guarantee the best possible hit performance and function. Countless medals have been won in national and international title competitions. Try out this specially developed short barrel cartridge and enjoy its advantages.

LONG RANGE MATCH

The **SK Long Range Match** ammunition is designed for demanding rimfire enthusiasts regularly acquiring targets out to 100 yards and beyond. It is purpose-built for today's long range rimfire shooting disciplines increasing in popularity, such as PRC, tactical rimfire, long range silhouette, and more.

Keep your distance with SK Long Range.

BIATHLON SPORT

Biathlon Sport is a result of innovative engineering, and a long history of close co-operation with top biathletes. The bullet has ideal velocity for frigid conditions, and it is designed for optimum ballistic performance, even in tough and windy conditions. The cartridge has a special lubricant designed specifically for perfect performance in freezing conditions. It is effective and reliable energy combined with the finest accuracy.

The SK headstamp – sign of quality.

SEMI-AUTO RIFLE

SK's "**Semi-Auto Rifle**" is designed to outperform, replace, and eventually retire all other inferior semi-auto ammunition offerings currently crowding the market. It's built to deliver pinpoint accuracy while functioning flawlessly through any 10/22 style firearms, AR's, 597's, 64's, and more.

Load. Engage Targets. Repeat.

HIGH VELOCITY MATCH

For discriminating 22 LR shooters that prefer lightning-fast speed, new SK High Velocity Match exits the muzzle at a blistering 1263 feet per second (385 m/s).

Disciplines such as PRS Rimfire, NRL22, and others where every second counts, trust High Velocity Match to strike on-target, with speed and precision. SK's 40 grain round-nose projectile is combined with a proprietary blend of clean-burning, high-energy propellant for reliable functioning in any platform – shot after shot.
