Pollinator Path Concrete Bloom

Pathmakers Patterns

How can design nurture a culture of care?
To begin answering this question, we looked deeply into the world around us, discovering and exploring the systems of care we found in nature.

With Pathmakers, we drew inspiration from bees, whose paths of pollination help sustain all life. Influenced by hive structures and the daily journeys of bees, Pathmakers carpet planks are designed to support multifaceted communities, utilising materials and methods that do more to care for our planet.

The collection creates nurturing paths of connection between people, the built environment and our natural world. For the two styles in this book, Concrete Bloom and Pollinator Path, we look to beehives to help us build a culture of care in active spaces.

Pollinator Path

Pollinator Path echoes the natural variation of cells within a bee hive, layering subtle, hexagonal linework at multiple scales. Use the two Pathmakers styles individually or together to create a mix of dynamic depth and structure across the floor.

Concrete Bloom

An exploration of the varied surfaces of beehives, Concrete Bloom is inspired by the bark-like visual we discovered on a hive's exterior. Across the floor, the richly detailed, organic movement hints at a bustling interaction of perspectives.

Better for People and Planet

Our future depends on the work we do today. At GH Commercial, commitment to our planet extends beyond just products and processes: it's how we challenge ourselves to do and be better every day, how we make decisions, how we reinvest in our people and our planet, and how we define what matters most as we work to deliver value for generations to come.

Better Products, Transparency & Innovation

Declare Program

GH Commercial is proud to support transparency in the built environment through participation in the Declare Program. Declare is a nutrition label for building products. It is designed to help you identify products that meet your project requirements.

Environmental Certification Scheme

Specify with confidence with the assurance of the Environmental Certification Scheme, which looks at the environmental performance of a carpet. Administered by the Australian Carpet Institute, ECS sets a new standard for eco-conscious practices in carpet manufacturing.

Locally Made

Proudly Manufactured in Australia

Our partnership with the Official Australian Made campaign aligns us with Australia's most trusted, recognised and widely used country of origin symbol, underpinned by a third-party accreditation.

Circular Economy

3R Program - Recover and Repurpose or Recycle

Under our 3R Program, we offer to take-back GH Commercial broadloom carpets, modular carpets, hybrid and vinyl flooring at the end of their first life, with the aim of facilitating the repurposing or recycling of these products and their diversion from landfill.

Loop Program

The Loop Program gives carpet tiles a second life. Where a customer is installing a GH Commercial product, we offer a service to take back and reuse any existing carpet tiles being replaced.

Our 3R and Loop Programs are operated on a 'no-profit' basis and any fees associated with these services are solely to recover costs of incurred.

Duracolor® Tricolor

FIBRE

Building upon the trusted Duracolor® promise with over 146 million metres installed since 1992, new Duracolor® Tricolor delivers exceptional stain resistance, colourfastness, durability, colour clarity and enhanced soil performance to commercial interiors. Carpet made with Duracolor® Tricolor is easy to maintain and features inherent stain resistance with water-only stain removal for most common stains.

RESISTANT

- The high-performance shape of the modified delta improves resilience and reduces surface wear of carpet

Common Nylon Fibre

Duracolor® Tricolor Fibre

Common Nylon Fibre

Duracolor® Tricolor Fibre

- Duracolor® Tricolor fibre has a negative charge that repels negatively charged, common staining substances

Common Nylon Fibre

Duracolor® Tricolor Fibre

- The triangular hollow core provides the best soil hiding capability and controlled light diffusion for clearer, brighter colours
- A vast majority of common stain-causing substances can be easily cleaned with just water
- Duracolor's built in stain resistance ensures long standing stain resistance compared to common topical treatments

BEAUTIFUL

- Exceptional colourfastness to light and atmospheric contaminants so colours resist fading and stay bright
- Unmatched design flexibility without compromising colour retention or stain resistance

SUSTAINABLE

- No Chemicals required: Most common stains clean with just water
- Declare Red List Free: Duracolor fibre is Declare® Red List Free in accordance with the Living Building Challenge
- Lasts Longer: Product life is extended, reducing the impact to your bottom line and to the environment

Mohawk Group

Culture of Care

At GH Commercial, our goal is to use design to nurture a culture of care. Inspired by pollinators, the Pathmakers Collection connects people to the ways of nature, while working to protect and nurture our natural world.

Enviro Bac®

Enviro Bac® is a dimensionally stable, breathable carpet tile and plank backing system offering exceptional performance features and allows for installation on slabs with high RH%. Made locally in Australia, Enviro Bac® is a Declare® LBC Red List Free certified carpet backing solution that has been trusted in commercial buildings around the country for over 20 years.

FEATURES

- Made locally in Australia
- Declare® LBC Red List Free
- Eligible for take back at the end of their life under our GH Commercial Recover Program
- Trusted in commercial buildings for over 20 years
- In stock on select ranges for no minimum order quantity or additional lead time
- Exceptional dimensional stability preventing the tile from stretching, shrinking or curling
- A breathable system with a good Moisture Vapour Emission Rate (MVER)
- High strength tuft bind helps resist edge ravelling
- Contains no PVC, BPA or Phthalates

Specifications

Pollinator Path Concrete Bloom

DESIGN

Country of Origin	Australia
Size	250mm x 1000mm
Product Thickness	6.5mm (+/- 1mm)
Pile Height	4.0mm (+/- 1mm)
Pile Weight	Pollinator Path - 745g/m ² (22oz/yd ²) Concrete Bloom - 745g/m ² (22oz/yd ²)
Surface Appearance	Textured, Patterned Multi-Colour Loop
Fibre Type	Duracolor® Tricor Premium Nylon
Dye Method	Solution Dyed
Colours Available	13 (Made to Order)
Installation Methods	Herringbone/Ashlar/Brick/Random
Available Options	500mm x 500mm Carpet Tile Enviro Bac® Lite Enviro Bac® Plus

PERFORMANCE

Construction	Tufted
Gauge	47.2/10cm (1/12th Gauge)
Stain Release Technology	Permanent, Built into the Fibre
Soil Release Technology	EcoSentry Soil Protection
Backing Material	Enviro Bac®
Flammability*	Meets the requirements of NCC Spec. C1.10 relating to fire hazard properties for Class 2-9 buildings (including health and aged care buildings). Meets the requirements of the New Zealand Buildings Code Section C3 - Fire Affecting Areas Beyond the Fire Source
Static Propensity	(AATCC 134) <3.5KV at 21°C & 20% Relative Humidity

SUSTAINABILITY

PVC Minimisation	PVC Free
Indoor Air Quality~	Green Building Compliant for VOC emission rate limits
Product Stewardship	This product qualifies for takeback at the end of life under the GH Commercial ReCover program.
Product Transparency	Declare® Red List Free
Green Star	Environmental Certification Scheme Level 4+. Achieves 12+ Points meeting Best Practice Requirements.
Accreditation	Manufactured under a quality, health and safety, and environmental system certified and complying with ISO 9001, ISO 45001 and ISO 14001 by accredited certification bodies

GUARANTEES/WARRANTIES*

Australia	15 Years Available on Request^
New Zealand	Comprehensive warranties are available on request and will be issued on a project by project basis

Declare®

Installation Instructions:

All GH Commercial carpets must be installed in accordance with the relevant Australian and/or New Zealand applicable standards (latest AS2455) and the GH Commercial Installation Instructions. Chair pads are recommended under office chairs with roller castors to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuft Stuff II Collection are recommended at entryways to reduce soiling. Specifications and colourations are subject to manufacturing tolerances. As part of the GH Commercial continuous improvement program, specifications may be changed or colours deleted without notice. For current and complete specifications please visit ghcommercial.com. Images do not seek to duplicate the exact visual appearance, but serve merely as a guide or point of reference. While all care is taken, product images may vary in colour due to possible printing process and/or light variations. *Test results and certificates are available on request. ~Minimum order quantities may apply. Contact your GH Commercial Account Manager for information. ^This guarantee/warranty is in addition to any rights consumers may have under Australian and/or New Zealand consumer laws. *Terms and conditions apply - for full information in respect to the scope of the guarantee please contact your GH Commercial Account Manager or our Head Office.
