# Quirky Pastels

A playful and creative take on traditional pastel hues.

Unwind 830 Stormy Blue

Metropol 1500 300 Sable Oak

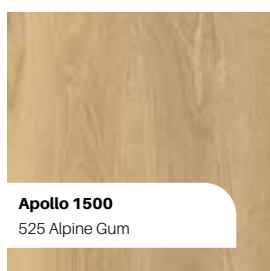

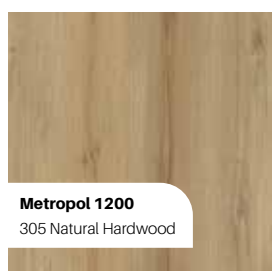

The Quirky Pastels trend is a playful and creative take on traditional pastel hues. Inspired by romantic pastels and vivid mid-tones, this trend incorporates a craft-driven approach to interior design.

The key to this trend is to work these colours in surprising combinations, achieved through considered contrast and softened by contemporary lines and neutral tones. To fully embrace this trend, pattern is pivotal. Experiment with collages of different textures and motifs, combining ditsy botanical outlines with bold geometric patterns. Textiles offer the opportunity to enhance this trend through embroidery, quilting, and patchwork.

## How to incorporate Quirky Pastels in your space.

Quirky Pastels is about having fun with colour, pattern and texture, while still maintaining a sense of sophistication and elegance. By embracing the unexpected and the unconventional, you can create a unique and personalised space that is both inviting and stylish. So, don't be afraid to play around with different combinations and experiment with different materials to truly make this trend your own.

## Colourful Carpet

Triexta carpet effortlessly weaves into the Haven Hues colour palette, offering a diverse range that aligns seamlessly with Haven Hues' captivating colour story. For an elevated choice, consider the neutral shades of wool carpet, a natural fibre that provides depth, dimension and insulation to a space.

## Hybrid Flooring

Hybrid flooring is an excellent choice for keeping this eclectic trend grounded in warm neutral colours. The flooring can provide a solid foundation for the space, allowing the focus to remain on the playful and creative use of pastels.
