Oceanic Dreaming

Capture the moods of Oceania: the Tasman and Coral Seas. Evoke the brackish fathoms, the glassy expansiveness, whitewashed rise and fall, dappled depths, the silver surface moon path, and the transparent shallows.

The Oceanic Collection is a design-led offering, influenced by the biophilic design concept; bringing the natural environment inside, both directly and implied. Our new commercial carpet range imagines the macro, and overall continuity of the oceans. Marbled coral reefs, stormy seas, sand stretches, teeming tropical fish, craggy coastlines and the myriad of marine life.

Zoom in on the micro spaces: seafloor shadows, tidepool textures, swaying kelp fronds, riptide flow and reflections. There's beauty in detail; crosshatched seaweed, dots and lines on a sea urchin, folded limestone corals, round fish roe, hexagonal sea turtle shell, radial lines on sea stars and the tonal saturation of the sea surface.

Pull back to the topographical: cerulean gradients of the abyss, the density of coral shelves, and the sandy relief. Feature the systems, colours and textures of the Great Barrier Reef; adaptive patterns and compositions, contrast and texture.

Help us be part of the plastic pollution solution and create healthy oceans that through education, inspire participation and the building of a global movement.

Take 3 for the Sea

The muse for our Oceanic Collection, and home to such diverse life, we want to actively participate in keeping our oceans free from plastic pollution. The organisation, Take 3 for the Sea, champions individual action; a simple solution for a complex problem. Think of it as a ripple effect – each time you leave the beach or waterway – take 3 pieces of rubbish with you.

As an Official Supporter, we want to do our bit for conserving our ocean environments. We make an annual donation to Take 3 for the Sea from the proceeds of the Oceanic Collection, supporting ocean clean-ups and education programs.

Designer Jet®

The first in the southern hemisphere, Designer Jet® is a world class custom carpet technology for creating an infinite array of colours and bespoke designs you would never have thought possible in a carpet.

At the forefront of custom carpet creation, Designer Jet® works by taking any striking pattern, drawing or image and using precision engineering to inject the dye into the carpet, offering a flexible, creative and performance driven solution for your next project.

Available in a multitude of formats, the patterns within this brochure are perfect as 250mm x 1000mm carpet planks - a cost effective, easy maintenance floor that can be installed in a number of unique ways.

FLEXIBILITY

Designer Jet® gives you the freedom to select your surface texture (velvet cut pile, textured loop pile or sculptured loop pile), product size (tiles, planks or sheet) and backing type depending on project requirements.

PERFORMANCE & DURABILITY

All Designer Jet® carpets are independently rated contract heavy or extra heavy duty under the stringent performance guidelines of the Carpet Institute of Australia's, Australian Carpet Classification Scheme.

BESPOKE CAPABILITY

With virtually limitless colour and design capability, let us make a carpet as unique as your project's interior.

FAST TURNAROUND

Our in-house design team can help create your vision and the carpet can be produced in as little as 3 weeks from order*.

MADE IN AUSTRALIA

Our Designer Jet® products are designed and manufactured in Australia and come with knowledgeable, local service.

SUSTAINABILITY

As part of our commitment to product transparency, all Designer Jet® carpet tiles and planks are Declare Red List Free. The Designer Jet process uses less water, chemicals and dyes than other carpet production methods and any carpet waste is recycled through our 3R program, diverting it from landfill.

COST EFFECTIVE

With zero design fees, smaller minimum orders and a price to suit any budget, Designer Jet® makes bespoke carpet a reality for any commercial interior.

*Please allow longer lead times for large or complex projects.

650 CORALEE

This mixture of colourful octocorals, or soft corals, can be seen swaying, almost dancing in the water's flow.

670 WHITSUNDAY

Found in the Coral Sea and noted as the world's biggest single structure made by living organisms, this colourful interpretation of the Great Barrier Reef makes a stunning impact.

775 DORSAL

Aerial views of our reefs provide a beautiful base of organic tones and textures. Blended with an overlay of the distinctive tracks found within the inhabiting brain coral species adds interest to the floor.

790 EMPEROR

The intriguing Angelfish is well known for its brilliant colours and striking patterns. Remove the colour and the alluring pattern formation still holds the purpose of deceiving predators.

785 REFLECTION

The hues of sun setting reflections connected with the ocean tones in the rippling shallow waters give a stunning effect.

Oceanic Collection

830 SEAFORTH

The vast expanse of the Great Barrier Reef can be seen from far above, making for great satellite imagery from space. Contrasting depths of the ocean bring harmonious tones of cool blues. These elements all come together in a balanced textural composition.

840 RIPTIDE

The ebb and flow of our tidal waters washing over rocks not only creates a natural vision for pattern, but brings a sense of calm and relaxation.

785 REFLECTION

845 LONG ISLAND

A submerged shoal or sandbank rising from the bed of the sea to the surface. This long and narrow underwater landform and its linear ridges make a bold statement on the floor when cut into planks.

850 ALTUM

Shifting tones, shapes and shadows naturally created off the sandy ocean bed with the movement of coastal waters.

860 KEPPEL

Recognised as one of the most productive and dynamic ecosystems on Earth, underwater kelp forests provide a unique habitat for marine organisms.

870 DUNK

An abstract take on deep water tones and shapes combined with the illuminate view of night coral provides an exceptional flooring base.

875 PETRO

The sweeping movement of the Oceanic waters interlaced with a striking coral pattern. The light and shade within this design creates the effect of a flowing path.

880 LIZARD

Natural rocky formations make up part of our reefs and provide a habitat for sea life and many other animals. This aerial view with glimmers of water provides a great foundation for a space.

890 OXYGEN

Bubbles of oxygen from the superabundance of under water life and the skin divers that frequent our reefs provide a playful pattern designed for any interior.

940 ERSKINE

An aerial view of our reefs from above, shows movement and flow from marine life dancing near the surface.

Designer Jet® Planks

Technical Specifications

Product Type	Designer Jet® Carpet Planks
Country of Origin	Australia
Description	Patterned Cut Pile
Colours	15 Standard
Yarn	100% BCF Yarn Dyed Nylon
Gauge	47.2/10cm (1/12th Gauge)
Product Thickness	7mm (+/- 1.0mm)
Pile Weight	576g/m ² / 17oz/yd ² (+/- 5%)
Backing Structure	Enviro Bac®
Product Size	250mm x 1000mm Plank
Available Options*	500mm x 500mm Tile, 1.96m Wide Carpet Roll, Textured Loop Pile, Sculptured Loop Pile, Enviro Bac Plus® (Cushion Backed), Colour and Design Customisation
Installation Method	Direct Stick or FlexLok® tabs (adhesive free installation) recommended (Ashlar, Herringbone, Brick-bond)

Performance

Anti-static	AATCC 134 <3.5 Kilovolts at 21°C & 20% Relative Humidity
Flammability*	CRF 9.8kW/m ² (Direct Stick) Smoke Value 79% Minutes
Colourfast to Light	5 - 6
Light Reflectance Values	Available on Request
Stain Resistance	Stain Warden®
Biocontaminant Control	Bioshield® Antimicrobial Control
ACCS Rating*	Contract Extra Heavy Duty & Stairs Certificate #19143
Australian Warranty*	15 Years Available on Request
New Zealand Warranty	Feltex provides comprehensive warranties for our carpets. All warranties are issued on a project by project basis. Please contact us to discuss your requirements further.

Sustainability

PVC Minimisation	PVC Free
Indoor Air Quality*	Green Building Council Compliant for VOC Emission Rate Limits
Product Stewardship	This product is recyclable and qualifies for takeback at the end of life under the GH Commercial product stewardship program
Green Star	Environmental Certification Scheme (ECS) Level 4 maximum points - Certificate #19143
Product Transparency	Declare Red List Free
Accreditation	Manufactured under a quality, environmental and health and safety system certified and complying with ISO9001, ISO14001 and AS4801 by an accredited certification body.

AUSTRALIAN
MADE

Manufactured under a quality, health and safety, and environmental system certified and complying with ISO 9001, AS 4801 and ISO 14001 by accredited certification bodies.
