

# Customizable APIs

Automate your rewards or incentive program with our robust suite of customizable APIs.

## API OVERVIEW

The PerfectGift.com API lets businesses quickly incorporate a wide range of digital and physical gift cards into their existing programs. Whether you're looking to reward employees, customers, or sales teams, our API makes it easy to do. Plus, we offer detailed documentation and support for a smooth integration experience.

Marketing  
Agencies

Healthcare

Real  
Estate

Gaming

Incentive  
Platforms

PerfectGift.com was a lifesaver for my HR team. Once we got everything set up...it was a breeze ordering bulk gift cards that can also be highly personalized. And these guys are super quick to deliver.

## WHY CHOOSE US

### Seamless User Experience

Build card selection and delivery inside your app or portal—maintain your UX throughout.

### Scalable Fulfillment

Whether you send 10 or 10,000 rewards a day, API handles distribution without extra overhead.

### Instant Reward Delivery

Issue prepaid cards in real time for most digital brands when a user completes a trigger event.

### Customization & Branding

Dynamically send co-branded or white-labeled prepaid cards through the API.

### Flexible Reward Options

Use API logic to give recipients choice: Visa/Mastercard, gift cards, or digital wallets—automatically.

### Integrate with Existing Workflows

Sync with CRM, marketing platforms, portals, or incentive engines—cards issued based on your system's logic.

We make things simple, you focus on growing your business. Reach out to our sales team to discuss how the PerfectGift.com API can transform your reward programs.
