

MASTER YOUR JOURNEY, WHATEVER THE SEASON

WEATHER CONTROL A005 EVO CONCEPT

Weather Control A005 EVO is a premium touring tyre providing **year-round safety**, reliability and control. Engineered as an all season tyre, Weather Control A005 EVO can handle everyday driving challenges across all four seasons **without compromising on wear life**.

TARGET CUSTOMER

- Cars, SUVs and 4x4 vehicles.
- Drivers that prefer convenience and using the same set of tyres year-round.

TECHNICAL CHARACTERISTICS

- 1 High-density shoulder elements for outstanding wet braking and handling on snow.
- 2 Innovative V-shaped pattern for excellence responsiveness in wintery conditions.
- 3 Innovative "Z" sipe shape (pattern lateral stiffness increase).
- 4 High-volume grooves for rapid water clearance and enhanced wet grip.
- 5 Uniform contact pressure distribution for resistance to irregular wear.

FEATURES

BEST-IN-CLASS WET GRIP INDEX

EU label grade "A", the highest ranking label for wet grip.

With deeper slots in the tyre pattern and a compound made of NanoPro-Tech™ technology, the Weather Control A005 EVO earned the highest EU Label Grade for its superior wet grip.

ENHANCED SNOW PERFORMANCE

Certified 3 Peak Mountain Snow Flake marking (3PMSF). Enhanced Snow potential. ¹⁾

Featuring Z-shaped sipes and a V-shaped layout, this tyre earned a 3-peak mountain snowflake certification for snow traction.

SUPERIOR WEAR LIFE

Offering the same mileage as our premium summer tyres. ²⁾

The optimised tyre carcass assures a regular footprint shape and gives the Weather Control A005 EVO the same excellent performance and high mileage as other Bridgestone summer tyres, with the added benefit of longer wear life.

AVAILABLE WITH INTEGRATED DRIVEGUARD RUN-FLAT TECHNOLOGY (RFT)
ON SELECTED SIZES

WEATHER CONTROL A005 EVO

1) Based on the internal tests carried out by Bridgestone vs. Weather Control A005 in Sweden proving ground. Tyre size 205/55 R16 94V. Tractive Force in [5-35 kph] range increased by 3% vs. predecessor. Snow Braking distance in [40-5 kph] range decreased by 3% vs. predecessor. Lateral acceleration increased by 4% vs. predecessor in Snow slalom test at 50kph.
 2) Same mileage potential of its predecessor vs. our premium summer tyres. Based on the internal tests carried out by Bridgestone vs. Weather Control A005 in indoor Lab. Tyre size 205/55 R16 94V. Tyre life depends on driving style, tyre inflation pressure, tyre and vehicle maintenance, weather condition, etc.
