A new gateway between Latin America and Asia

The new Port of Chancay in Peru is emerging as a key gateway connecting Latin America with China, with an investment of over USD 3.5 billion and the potential to reduce shipping times by up to 10 days.

This new logistics hub will strengthen exports from the region and open major opportunities for freight forwarders operating in LATAM.

At GKF network, we connect you with reliable agents across Latin America to help you take advantage of these growing trade routes.

Join GKF and build new business partnerships in LATAM.

CYBERSECURITY ALERT PROTECT YOUR BUSINESS

Cyber fraud and identity theft cases continue to rise globally, including in the logistics industry. We encourage all members to reinforce verification procedures before executing any payment.

To protect your company:

- Verify emails come from the official company domain.
- Carefully confirm any change in banking details, especially urgent requests.
- Validate payment instructions through a second communication channel.
- Check the GKF/ULN Members Directory to confirm company and contact details.
- Never process a payment without verified confirmation from the authorized contact.

If you notice any irregularities, please contact the GKF Network or ULN Network team before proceeding with any transfer.

Stay alert. Stay protected.
