SEALED OVER-THE-GLASSES

Lightweight dielectric safety glasses that fit over prescription eyewear

Sealed Over-the-Glass Safety Glasses are designed to provide dependable protection for workers and visitors who wear prescription eyewear. The lightweight, dielectric, 100% metal-free design fits comfortably over most RX glasses while maintaining all-day comfort. A sealed frame with integrated lens gasket helps reduce dust and debris intrusion, while the anti-fog polycarbonate lens supports clear visibility in demanding environments. Adjustable ratchet temples and a removable elastic retention strap allow for a secure, customized fit. With a frameless wraparound design for enhanced coverage, these safety glasses deliver reliable protection without compromising comfort or convenience.

LENS OPTIONS

- ○ Clear
- ● Gray

FEATURES

- AF (Anti-Fog) lens: FSI brand hydrophobic anti-fog lens treatment reduces fog in many variable temperature environments
- Fits comfortably over most prescription eyewear for convenient protection
