

# INTRA

## *Sterile, Latex Surgical Undergloves* POWDER-FREE

Designed to reduce risks when performing orthopaedic surgery, HAIKA™ INTRA is a soft and elastic dark green coloured latex underglove. INTRA can be paired with any surgical overglove for enhanced protection during intensive surgical procedures.

### **Key Features and Benefits**

#### **Enhanced Safety**

When worn with a neutral coloured overglove, the dark green colour of INTRA acts as an indicator that alerts the wearer of a puncture to the overglove.

#### **Reduced Hand Fatigue**

Each glove is expertly manufactured and anatomically designed to mimic the natural curvature of the human hand at rest. The result is reduced fatigue and improved finger dexterity, even during rigorous procedures.

#### **Excellent Double Donning**

A multi-layered coating and beaded cuff combine to provide an incredibly durable glove that can be donned efficiently. The innermost polymer layer contains moisture absorbent properties to facilitate damp hand donning and to help minimise an accumulation of perspiration during wear.

#### **Powder-free**

Eliminates powder-induced irritation and powder stains. Minimises any post-procedure complications caused by powder.

### **Recommended For**

- ✓ All surgical procedures
- ✓ Specifically where a risk of glove puncture exists
  - For example: trauma, cardiac, transplant, orthopaedic and gastrointestinal procedures

### **Material Information**

- Natural rubber latex
- Beaded cuff
- Powder-free
- Undetectable protein level

### **Packaging**

## Technical Data

<b>TYPE</b>	Sterile surgical underglove for single use, powder-free			
<b>MATERIAL</b>	Natural rubber latex			
<b>COLOUR</b>	Dark green			
<b>GLOVE SHAPE</b>	Anatomically formed with a beaded cuff			
<b>OVERALL LENGTH / SIZE</b> (AS PER EN455-2)	Min. 285 mm			
<b>WALL THICKNESS</b> (MEASURED IN SINGLE LAYER OF THE PALM AREA)	Min. 0.15 mm			
<b>IMPERMEABILITY</b> (AS PER EN 455-1)	AQL 0.65			
<b>FORCE AT BREAK (N)</b> (AS PER EN 455-2)	Initial	24.0	Aged	18.0
<b>SHELF LIFE</b> (IN ORIGINAL PACKAGING WHEN STORED AS PER DIN 7716, ISO 2230)	5 years from date of sterilisation			
<b>STERILISATION</b>	Irradiation			
<b>PACKAGING</b>	Left and right cuff turned inside out in a high quality medical paper inner pouch and sealed in a flat film medical peel pack. Per dispenser carton: 50 pairs Per transport carton: 200 pairs			
<b>COUNTRY OF ORIGIN</b>	Malaysia			
<b>ORDER NUMBERS</b>	Size 5½	HAK6055	Size 7	HAK6070
	Size 6	HAK6060	Size 7½	HAK6075
	Size 6½	HAK6065	Size 8	HAK6080
			Size 8½	HAK6085
			Size 9	HAK6090

## General Information

### Conformance:

HAIKA™ INTRA surgical gloves are manufactured and tested in accordance with EN455 parts 1, 2 & 3.

Registering Authority: In Europe the gloves are CE marked (notified body BSI, number 2797) indicating compliance with Council Directive 93/42/EEC, Annex V. HAIKA™ surgical gloves are a Class IIa product.

HAIKA™ is a brand of Globus; expert in hand protection solutions for the workplace and at home.

Note: Globus assumes no responsibility for the suitability of a user's glove selection for a specific application. Caution: This product contains natural rubber latex which may cause allergic reactions.
