## CLEANROOM GLOVES

- Nitrile
- Powder-Free
- Non-Sterile
- Ambidextrous

### Overview

#### Secure Control

A textured surface enhances slip resistance and allows for a secure grip.

#### High Puncture Resistance

Manufactured from nitrile, these gloves offer superior puncture resistance compared to regular latex versions, as well as enhanced resistance to chemicals.

#### Supreme Comfort and Sensitivity

The lightweight and elastic nature of the nitrile delivers an excellent sense of touch and a comfortable wearing experience even when worn for long periods.

#### Beaded Cuff

Durable beaded cuff design enables the glove to be donned efficiently, and helps it to remain securely in position when wearing.

#### ISO Class 5

Processed in a cleanroom environment to ensure compatibility with ISO Class 5 operating conditions.

#### Powder-free and Latex-free

Minimises the potential consequences of powder-borne dermatitis and may be worn by people with a Type I latex sensitivity.
