E-Pro 3 Arc Flash Protective Helmet with Integrated Anti-Fog Visor and Protective Fire-Retardant Chinguard

ITEM SKH00028BZ

Features

- Black ABS shell with integrated retractable blue polycarbonate visor
- Integrated retractable visor with dual position locking
- Internal liner made of EPS foam for impact energy absorption
- Fire-retardant textile chinguard: Nylon skeleton structure with fire-retardant fabric
- Anti-fog and anti-scratch coatings on the visor for extra protection and clarity
- Adjustable fit system for head sizes 53-62 cm
- Arc-flash protection certified to GS-ET-29 and IEC 62819 Class 2
- ASTM F2178 Arc Rating (ATPV) = 28 Cal/cm²
- NFPA 70E Arc Flash PPE Category: 3
- Meets ANSI/ISEA Z87.1-2020 high impact standards

Meets ANSI/ISEA Z89.1-2014 standards

- Type 1: Top-head protection, excels against vertical blows, limited lateral defense.
- Class E: Withstands 20,000 volts, shields against arcs and electrical shocks.

Description

The E-Pro 3 safety helmet features a durable PC/ABS shell with an EPS foam liner for superior impact and electrical protection. Designed for high-risk electrical environments, this helmet includes an integrated retractable arc flash visor with an ASTM F2178 arc rating (ATPV) of 28 cal/cm² for advanced face protection. The visor is ANSI/ISEA Z87.1-2020 high-impact rated and features anti-fog and anti-scratch properties for improved visibility and durability. Certified to ANSI/ISEA Z89.1-2014 Type I Class E, the helmet is equipped with a 4-point adjustable chinstrap, adjustable ratchet suspension system, and replaceable comfort padding for a secure and comfortable fit. The E-Pro 3 also features a protective textile chin guard with a fire-retardant nylon skeleton structure for enhanced protection and durability.
