

FROGWEAR™ DISPOSABLE CLOTHING

FDA Compliant, Anti-Static, White, SMMS Material Disposable Non-Woven Coveralls with Hood and Boots

Description

These disposable, non-woven coveralls have an attached hood and boots, providing full coverage. The white 55-gram SMMS material has a higher filtration rate, better bacteria isolation, and assists with liquid repellency when compared to standard SMS material. The coveralls feature a reinforced triangle crotch and serged seams for extra durability. The elastic on the hood, waist, and wrists provide a secure fit for the user and help to keep dust and other particulates out. The zipper closure has a storm flap to keep particles out. These coveralls comply with FDA regulations for food contact.

INDUSTRY

Food Handling	Sanding
Painting	Waste Management
Insulation	Cleaning
Asbestos Removal	Refinishing

Features

- Component materials comply with FDA regulations for food contact
- White four-layer low-lint 55-gram SMMS (Spunbond Meltblown Meltblown Spunbond) material
- SMMS material, when compared to standard SMS material, provides better bacteria isolation, superior durability, a higher filtration rate, and improved impermeability due to the additional layer of melt-blown material
- Made from anti-static material
- Excellent for dust and particulate protection
- Serged seams
- Reinforced triangle crotch provides additional tear and rip resistance when squatting
- Elastic on the hood, waist, and wrists
- Attached hood and boots provides protection from head-to-toe
- Zipper front with storm flap
- Meets ANSI/ISEA 101-2014 sizing standards
- EN 13982 Type 5: Meets
- EN 13034 Type 6: Meets

ITEM **NW-SMS350COV**

SIZES **M-5XL**
