BG

Wide-view chemical splash safety goggles with anti-fog clarity and indirect ventilation

The BG3 chemical splash goggles provide dependable eye protection with a wide-view design that maximizes visibility and awareness. Featuring a clear anti-fog lens, indirect top and bottom ventilation, and a comfortable crystal blue PVC frame, these goggles help guard against chemical splashes while reducing lens fogging. An adjustable elastic head strap ensures a secure fit, making the BG3 an excellent choice for laboratories, chemical processing, manufacturing, and other industrial environments where clear vision and reliable protection are essential.

LENS OPTIONS

- ◯ Clear

FEATURES

- AF (Anti-Fog) lens: FSI brand hydrophobic anti-fog lens treatment reduces fog in many variable temperature environments
- Indirect vented design helps protect against chemical splashes while allowing airflow for greater wearer comfort
- Wide-view lens design provides an expansive field of vision for improved awareness and productivity
- Slotted indirect vents on the top and bottom enhance ventilation to help minimize lens fogging during extended wear
- Soft crystal blue PVC frame delivers a comfortable, secure seal around the eyes for reliable splash protection
- Adjustable elastic head strap ensures a customized fit for a wide range of users and applications
- Durable 5-base lens combines protection and optical clarity for dependable performance
