

100% visually correct anti-fog lens safety glasses with flexible TR-90 frames for all-day comfort and glare-free clarity

These Whipray safety glasses feature frames made with TR-90 material. TR-90 frame technology is extremely comfortable and can bend under pressure resulting in a custom contoured fit for all-day wear. The one hundred percent visually correct cylinder lens is sculpted at a 10-base curve for superior coverage and crisp visual acuity. This model features polarized, precision lenses, which filter out bent light waves reducing glare, eye fatigue, and decreasing reflection off surfaces such as water, sand, and snow. The BH3219PFT also features a PFT lens.
