OVER-THE-GLASS-2

Dielectric overglasses designed to fit comfortably over prescription eyewear with lightweight polycarbonate protection

The Bullhead Safety® Over-The-Glass-2 safety glasses provide a lightweight, economical solution for workers and visitors who wear prescription eyewear. Designed with an enlarged lens area, they fit comfortably over a wide range of RX glasses while delivering dependable eye protection. The dielectric, nonconductive construction makes them suitable for environments where electrical hazards may be present, while the frameless design helps reduce weight for enhanced comfort. Manufactured from high-quality polycarbonate and 100% virgin materials, Over-The-Glass-2 offers durable protection, excellent visibility, and convenient compliance in safety eyewear required areas.

LENS OPTION

- Gray

FEATURES

- Fits comfortably over most prescription eyewear for convenient eye protection
- Enlarged lens design accommodates a wide variety of RX glasses
- Dielectric, nonconductive construction supports use around electrical hazards
- Lightweight frameless design promotes all-day comfort and wearability
- Economical solution for workers and site visitors who wear prescription glasses
- High-quality polycarbonate construction provides dependable impact protection
- Ideal for safety glass-required areas where RX eyewear is worn
- Fits prescription glasses up to 149 mm wide and 50 mm high
