

Lens Amber Anti-Fog

Frame Gray with Blue

Description

The Riley® Stream™ Evo Eco is the first safety glass to the market that doesn't contain single use plastic. These glasses redefine eye protection with a sleek, frameless sports-style design engineered for industrial environments. Weighing just 23g, this ultra-lightweight safety spectacle delivers all-day comfort without compromising on durability or protection. Featuring a single 9.5-base wraparound polycarbonate lens, the Stream™ Evo Eco provides a wide field of vision and effective lateral protection. These lenses are treated with Arida 400, UV400, and Moisture Repellent coatings, offering superior anti-scratch and anti-fog performance for clear visibility in demanding conditions. Comfort and fit are prioritized with a soft, adjustable rubber nose bridge and co-injected, bi-color thermoplastic rubber temples that flex to ensure a secure, anti-slip fit. Slim, metal-free temple arms are specially designed for compatibility with ear defenders, making these glasses ideal for high-noise environments. Fully metal-free, these are safe for electrical applications and reduce interference in sensitive work areas.

Each pair is supplied with a microfiber storage pouch.

Technology

This style features lenses constructed with the highest quality polycarbonate, temples made with Thermoplastic TR90, and the nose piece and temple ends made with Thermoplastic Elastomers (TPE) material.

Features

- Lightweight frameless design with slim wraparound style lenses
- Single-mold lens with 9.5 base curve
- All UV400 lenses are fully coated with a premium anti-fog and anti-scratch solution
- Soft TPE temple tips and nose piece relieve discomfort to pressure points on the head and face
- Soft adjustable TPE nosepiece for enhanced comfort and fit
- Co-injected, dual-color (gray and blue) flexible temple ends ensure a secure and comfortable fit
- Slim temples enhance comfort when worn with ear protection
- Lateral protection
- 100% metal free
- Comes with a microfiber storage pouch
- Meets ANSI/ISEA Z87.1-2020 high impact standards
