

Retainer cord included with each pair of Spearfish® glasses.

LENS Clear Performance Fog Technology

FRAME Shiny Black

DESCRIPTION

The Spearfish® has a flexible frame with vented temples, a TPR nose piece, and TPR temple ends. Designed to contour with the natural curvature of the head, the Spearfish® maximizes all-day wearability and comfort. The BH2251PFT also features a PFT lens. Thanks to its chemical and physical properties, Performance Fog Technology is a permanent coating that prevents the formation of condensation on the lenses by absorbing the humidity drops.

Each dozen is packaged in a retail-ready box.

FEATURES

- PFT - Performance Fog Technology lens: Better than traditional anti-fog! This water-washable, hydrophilic anti-fog lens coating is permanently bonded to the lens to absorb moisture and evenly disperse it, providing clear, fog-free vision
- Each pair includes a retainer cord
- Flexible and lightweight half-frame design
- Dual 8 base curve lenses for 100% visual clarity

TECHNOLOGY

All Bullhead Safety® Eyewear is made from 100% virgin materials. This style features lenses constructed with the highest quality polycarbonate and frames made with nylon.
