

FrogWear® HV High-Visibility Yellow/Green Self-Extinguishing Rain Bibs

ITEM **GLO-1700**

SIZES **S-5XL**

*Pair with GLO-1400 or GLO-1450 for a complete suit

Features

- 0.18 mm PU coated 150D oxford polyester
- 3M™ reflective material enhances low-light visibility
- High-visibility yellow/green
- Self-extinguishing as defined by ASTM D6413 (<2.0s flameout / <6" char length). This garment should never be used where an arc flash or flash fire hazard is present. Self-extinguishing properties diminish with washing.
- Fully taped seams are waterproof and windproof
- Nonconductive hardware
- Elastic shoulder straps
- Total Pockets: One - (1) outside of right thigh
- Adjustable hook-and-loop closure
- Snap fly closure

Meets ANSI/ISEA 107-2020 standard

- Class E

Description

These self-extinguishing rain bibs are high-visibility yellow/green 0.18 mm polyurethane-coated 150D oxford polyester. The 3M™ reflective material increases low-light visibility. The bibs feature fully taped seams, nonconductive hardware, shoulder straps, one outside pocket, and a snap fly closure. The adjustable hook-and-loop closure at the ankles gives extra protection from the elements. The bibs are self-extinguishing as defined by ASTM D6413.

Each item is packaged individually with hanging grommets for retail sale.

*DISCLAIMER: Self Extinguishing garments are made from material that is not inherently flame retardant, but are chemically treated to become flame resistant. They are NOT designed for use in ARC flash or flash fire applications. When a flame source is removed from the treated material, the material will self-extinguish within a given time frame. The treated material can melt and drip and has a limited life span dependent on washings and what the garment is exposed to. Performance is established using the ASTM D6413 test method.
