

FrogWear® Cold Protection Premium Flexible Waterproof Triple-Coated PVC Chemical Handling Gloves

Description

These premium super-flexible chemical-handling gloves feature an antimicrobial-treated dual seamless 13-gauge cotton and 7-gauge brushed acrylic terry cloth liner that keeps your hands warm and dry. The liner flexes with the glove allowing freedom of movement and reducing the hand fatigue associated with working in cold environments. Triple-dipped premium-grade blue PVC is specially formulated for the handling of chemical residues, oils, or greasy materials and stays flexible in temperatures down to -5°F. Sandpaper finish enhances grip in wet or oily conditions. The gloves are 12 inches long and have a gauntlet cuff for extended arm protection and quick removal.

INDUSTRY

Low Temperature Applications	Handling
Outdoor Activities	Freezer Applications
Cold Material	Commercial Fishing
	Petrochemical
