

Torq Spark™ Premium Vend-Packaged Leather Welding Gloves with Cut and Impact Resistance

Description

This premium cut and impact TIG welding glove is engineered for a high-performance balance of dexterity, durability, and multi-hazard protection. Constructed from A-grade goatskin leather, this glove provides exceptional tactile sensitivity and flexibility, making it ideal for TIG welding, grinding, brazing, and other high-heat applications. Key features include a 360° cut-resistant liner made from Tuffalene® UHMWPE and soft, molded TPR reinforcements across the knuckles, fingers, and thumb to reduce the risk of impact injuries. The glove also incorporates welted seams stitched with para-aramid thread for enhanced heat resistance and longevity in harsh conditions. A long-split cowhide cuff extends protection to the forearm and wrist, while the overall length ensures full lower-arm coverage. Designed with a three-dimensional thumb structure, this glove improves grip control and facilitates precise, controlled welding. Each pair is vend-packed for vending machines.

Features

- Premium-grade grain goatskin leather shell
- Tuffalene® UHMWPE inner liner offers 360-degrees of high cut protection and comfort
- Soft, flexible, TPR impact protection over the fingers and metacarpal bones provides tough protection
- Excellent thermal protection against flames, sparks, and welding spatters
- Sewn with aramid fiber for added durability and heat resistance
- Reinforced leather patch on the side of the hand
- 4.5 inch long premium-grade split cowhide leather gauntlet cuff allows for easy donning and removal plus extra forearm protection
- Contact heat protection up to 100°C / 212°F for a short period (15 sec max)
- Packaged in a vend pack ready manner for use in vending machines
- EN 388:2016 + A1:2018 Levels: 3X43FP
- EN 407:2020 Levels: 412X4X
- EN 12477:2001 + A1:2005 Type B
