Partner with GO1

GO1 is internationally recognised as a leader in employee training. With the world's largest network of online training providers, GO1 has courses on employee compliance, professional development and soft-skills available through the GO1 Learning Platform. Partner with us, and together we can make the GO1 Premium Content library and the Learning Platform available to your clients.

Open new doors.

Leverage the fast growth of the online learning industry; to attract new clients.

Generate product value.

Improve your existing client relationships by expanding your product portfolio with exciting new content offerings.

Get Rewarded.

A partnership with GO1 can create new revenue streams for your organisation.

We empower our partners.

Flexible integration options

You will have access to our proven partner integration patterns, or we can work with you to develop a custom partner solution to suit your needs.

Access GO1 partner tools

We have developed a GO1 Partner Hub where you can self-manage your clients who are using the GO1 Learning Platform.

Partner Manager

A dedicated Partner Manager will be available to support you through the partner process and answer any questions you may have.

Enjoy extensive support

We ensure you can freely access GO1 partner support information: including marketing collateral and technical implementation documentations.

Quick time to market

After signing a partnership agreement, expect a short time frame from acquisition to launch of your partner solution.

Ongoing returns

By partnering with GO1, you will establish recurring revenue streams and grow your bottom line.

Referral Partner

Use the GO1 Partner Hub to refer customers to us, you will earn revenue once the sale converts. There is an option to also build a user and/or enrollment status integration as a referral partner.

Content Marketplace

GO1 can assist you to develop a content marketplace storefront within your website. This will allow your customers to view GO1 courses and individually pay for them, directly from your website.

Powered by Content

Allow your customers to access the extensive GO1 content catalogue directly from your platform (suited to partners with an existing LMS AND/or TMS). You can pull GO1 content into your platform through a pre-configured GO1 API integration, or we can develop a native GO1 content integration with your platform.

Powered by Platform

You can use the GO1 Learning Platform, to power or expand your current product offering. We can rebrand the GO1 Learning Platform to be your software solution, combined with your existing content, or this partnership can include a license for the GO1 content library.

If you want to start your journey with GO1, get in touch with us today
